Framework Fairy Tale Retelling:

Re-Orienting the Fairy Tale Mayako Murai, Luciana Cardi, 2020-08-25 New approaches to decenter Eurocentric perspectives in fairy tales and lift up storytelling cultures across the globe *Re Orienting the Fairy Tale Contemporary Adaptations across Cultures* seeks to re orient the fairy tale across different cultures media and disciplines and proposes new approaches to the ever expanding fairy tale web in a global context with a special emphasis on non Euro American materials Editors Mayako Murai and Luciana Cardi bring together emerging and established researchers in various disciplines from around the world to decenter existing cultural and methodological assumptions underlying fairy tale studies and suggest new avenues into the increasingly complex world of fairy tale cultures today Divided into three parts the fourteen essays cover a range of materials from Hawaiian wonder tales to Japanese heroine tales to Spanish fairy tale film adaptation Chapters include an invitation from Cristina Bacchilega to explore the possibilities related to the uncanny processes of both disorientation and re orientation taking place in the journeys of wonder tales across multiple media and cultures Aleksandra Szugajew s chapter outlines the strategies adopted by recent Hollywood live action fairy tale films to attract adult audiences and reveals how this new genre offers a form of global entertainment and a forum that invites reflection on various social and cultural issues in today s globalizing world Katsuhiko Sukanuma draws on queer theory and popular musicology to analyze the fairy tale intertexts in the works of the Japanese all female band Princess Princess and demonstrate that popular music can be a medium through which the queer potential of ostensibly heteronormative traditional fairy tales may emerge Daniela Kato s chapter explores the ecological dimensions of Carter s literary fairy tale and offers an ecofeminist interpretation of a fairy tale forest as a borderland that lies beyond the nature culture dichotomy Readers will find inspiration and new directions in the cross cultural and interdisciplinary approaches to fairy tales provided by *Re Orienting the Fairy Tale*

Memory Studies in the Digital Age D Sudha Rani, Rachel Irdaya Raj, 2025-02-25 This interdisciplinary volume attempts to gauge the individual and social issues related to memory with an understanding of memory studies as an independent body of scholarship It draws on multiple fields of knowledge like popular culture history literature oral cultures and storytelling which facilitates a panoramic view of memory studies This book investigates the intersection between memory studies partition oral literature and digital technology It is also informed by the consciousness of memory in the digital age which plays an integral role in what is remembered forgotten the form in which such memories are stored and how they might be retrieved in future This book will be an invaluable resource for those involved in research from undergraduate to post doctoral level This includes sociologists psychologists historians artists academicians as well as research scholars from other disciplines *AI Applications and Strategies in Teacher Education* Keeley, Krista LaRue, 2024-10-10 Artificial intelligence is revolutionizing teacher education by offering innovative applications and strategies to enhance the learning experience for educators and students From personalized learning platforms to intelligent tutoring systems AI can transform traditional
