Ufas Retrofit Guide Accessibility Modifications For Existing Buildings:

UFAS Retrofit Guide Barrier Free Environments Incorporated, 1993-04-15 Detailed modification information for all parts of the structure and site While new construction has been built with accessibility as a leading priority for the past several decades older buildings may have to undergo retrofitting to become compliant with modern regulations UFAS Retrofit Guide Accessibility Modifications for Existing Buildings provides comprehensive guidance toward retrofitting older structures to align with the Uniform Federal Accessibility Standards as well as ADA and ANSI guidelines Presented in a problem solution format this guide provides technical information for modifications of parking entrances workspaces assembly areas bathrooms and more **UFAS Retrofit Guide** ,1993 Produced by Barrier Free Environments Inc Raleigh N C this guide demonstrates suggested methods to retrofit all types of facilities to comply with the Uniform Federal Accessibility Standards It provides the technical information needed to modify building elements as well as site building and occupancy specific spaces The problem solution format and the utterly clear illustrations make the guide particularly easy to use Annotation copyright by Book News Inc Portland OR Case Studies of Rehabilitation, Repair, Retrofitting, and Strengthening of Structures Mourad M. Bakhoun, 2010 **Rehabilitation Engineering Applied to Mobility and Manipulation** Rory A Cooper, 1995-01-01 The discipline of rehabilitation engineering draws on a wide range of specialist knowledge from the biomedical sciences to materials technology Rehabilitation Engineering Applied to Mobility and Manipulation provides broad background and motivational material to ease readers introduction to the subject The book begins with a wide ranging yet concise introduction to the legislative technological testing and design basis of rehabilitation engineering followed by the fundamentals of design and materials and a full account of the biomechanics of rehabilitation Major sections of the book are devoted to various aspects of mobility including detailed discussion of wheelchair design Valuable additional material deals with seating prosthetic devices robotics and the often neglected subject of recreational devices and vehicles More than a thousand references to the research and review literature put readers in touch with the leading edge of a rapidly growing field **Accessible Design Review Guide** Robert R. Grist, 1996 A new and innovative approach to both designing and analyzing proposed and existing facilities for ADAAG compliance With its emphasis on physical accessibility the Americans with Disabilities Act Accessibility Guidelines ADAAG have far reaching implications for the design or renovation of virtually all public use buildings and sites in the United States Yet there has been little guidance on how to design and review the drawings and specifications of an existing or proposed facility to assess its ADAAG compliance This invaluable reference provides such guidance at last for architects interior designers landscape architects engineers builders planners facilities managers specification writers construction code officials teachers and students as well as individuals concerned with access issues The authors present the ADAAG in an easily understandable format grouping ADAAG criteria into detailed checklists for specific interior and exterior spaces such as offices classrooms retail shops

restaurants restrooms and parking garages This sensible approach makes the review process of any room building or site highly manageable For additional convenience the presentation parallels the design process from schematic design through construction documents including detail schedule and specification review Complete with review forms checklists graphics and other information necessary to ensure ADAAG compliance this thorough guide will prove invaluable to everyone involved with the design or retrofit of accessible buildings and sites
