**Corpus Analysis** ,2016-08-09 The papers published in this volume were originally presented at the Third North American Symposium on Corpus Linguistics and Language Teaching held on 23 25 March 2001 at the Park Plaza Hotel in Boston Massachusetts Each paper analyses some aspect of language use or structure in one or more of the many linguistic corpora now available The number of different corpora investigated in the book is a real testament to the progress that has been made in recent years in developing new corpora particularly spoken corpora as over half of the papers deal either wholly or partially with the analysis of spoken data This book will be of particular interest to undergraduate and graduate students and scholars interested in corpus socio and applied linguistics discourse analysis pragmatics and language teaching

*The Rhetoric of the Abstract in English and Spanish Scientific Discourse* Pedro Martín-Martín,2005 Scientific discourse is increasingly internationalised as a result of the great influence that the discourse conventions of the international English speaking academic community exert on scientific communication worldwide Contrastive rhetoric studies however have shown that the particular configuration of different discourse communities may have an influence on the construction of genres This book explores rhetorical preferences in the research article abstract genre The main focus of the study is an investigation of the extent to which there is cross linguistic variation in terms of the rhetorical strategies used by writers in abstracts to foreground their main knowledge claims and present themselves as qualified discourse community members From a quantitative and qualitative perspective the author compares the rhetorical structure and other socio pragmatic features of abstracts written in English for international scientific journals with those written in Spanish for Spanish journals in the experimental social sciences and more specifically in the disciplines of phonetics and psychology In the interpretation

of results the author mainly draws on socio cultural and contextual factors to account for cross cultural rhetorical variation
