Unfair Competition Law The Protection Of Intellectual And Industrial Creativity:

Unfair Competition Law Anselm Kamperman Sanders,1997 This work gives an overview of the current state of the law of unfair competition for the protection of the intellectual creations and industrial assets in the EU the USA and other major Anglo American jurisdictions Despite the growing interest in this area of law in recent years little attention has been given to the varying legal and economic paradigms that underlie and shape it This need for a comparative theoretical examination is heightened by the advent of the information age coupled with the desire to integrate markets These developments pose a challenge to the current regimes of intellectual property protection since these are increasingly becoming out of step with the paradigms that shaped the traditional patent copyright and trademark regimes In this work the author explores the alternative to a protective regime based on unfair competition doctrines and examines the themes of economic justification shaping legal boundaries finding a legal justification practical application and harmonization of national laws

Digital Trademarks and Brands Rajeev Sachdev,2025-10-28 Trademark disputes are a consistent feature of the digital legal landscape appearing in connection with a range of successive technologies and platforms This book presents a new adapted model for digital trademarks and trade practices providing recommendations for the Uniform Domain Name Dispute Resolution Policy UDRP and extending a like process to platform trademark policies and complaint procedures including e commerce marketplace search advertising social media mobile applications and Metaverse platforms The proposed model addresses and greatly reduces legal uncertainties and the harm caused by problems for digital trademarks in such key areas as the following use and place of use of marks bad faith and abuse confusion unfair acts trade practices or competition terms policies and disclaimers jurisdiction territory and justification The adapted model is informed by pertinent theories and concepts select aspects of EU and U S and other legal frameworks and existing policies Ultimately a uniform policy is recommended for each of the five platform types in line with an adapted version of the UDRP based on recommendations through the model It is applied in a way that provides a comprehensive workable solution fostering legal certainty Actual text for the proposed adapted UDRP as well as the uniform policies recommended for each type of platform is provided with guidance for implementation The book provides recommendations that can greatly enhance the resolution of trademark disputes of various kinds and on various platforms in a more certain cost effective and timely manner Given that the complex global environment of digital trademarks raises new issues not adequately addressed by legal frameworks this book will be of inestimable value to digital platforms e commerce search advertising social media mobile app Metaverse etc website operators platform and website lawyers various stakeholders in the UDRP arbitrators panellists online dispute resolution providers libraries academics and researchers It will also be useful to digital businesses domain name holders sellers listers advertisers content providers digital consumers trademark holders digital trademark users and others

Unfair Competition Law Frauke Henning-Bodewig,2006-01-01 The book delineates with extraordinary clarity and precision the

working of unfair competition law throughout the European Union Its four comprehensive chapters encompass basic considerations of definition subject matter enforcement and applicable law international provisions under the Paris convention TRIPS and WIPO model law analysis of relevant EC directives and regulations and ECJ jurisprudence and extensive discussions of the national unfair competition laws of all 25 Member States For each Member State specific topics covered include such considerations as the following sources of law competition law in a nutshell regulation of advertising direct marketing sales promotion risk of confusion disparagement defamation misappropriation imitation impediment of competitors and breach of the law The author also provides a selected bibliography of sources for each country It would be difficult to find a more useful analysis of European Unfair Competition Law than this systematic study It is practical thorough clarifying and readable all at the same time The author untangles the most complex of apparent contradictions with impressive skill Copies of this book will quickly take their places on the working shelves of interested practitioners academics and officials throughout Europe
