Learning** Douglas Fisher,Nancy Frey,John Almarode,Aleigha Henderson-Rosser,2021-03-06 What a year Twelve months and
counting since COVID expanded stretched and blurred the boundaries of teaching and learning at least one thing has
remained constant our commitment as educators to move learning forward It s just the context that keeps changing why
Doug Fisher Nancy Frey John Almarode and Aleigha Henderson Rosser have created a follow up to The Distance Learning
Playbook their all new Quick Guide to Simultaneous Hybrid and Blended Learning First to be clear simultaneous learning
must not be an additive meaning we combine two entirely different approaches and double our workload That s
unsustainable Instead we must extract integrate and implement what works best from both distance learning and face to face
learning environments Then and only then Doug Nancy John and Aleigha insist can we maximize the learning opportunities
for all of our students To that end The Quick Guide to Simultaneous Hybrid and Blended Learning describes how to Have
clarity about the most important learning outcomes for our students This will help us decide what is best done
asynchronously and what is best done with our Roomies and Zoomies Capitalize on the potential of asynchronous learning
and use that valuable time to preview and review This way we can draw on evidence from these tasks to help us decide
where to go next in our teaching and our students learning Utilize synchronous learning for collaborative learning and
scaffolding of content skills and essential understandings In doing so we can collect additional evidence of students learning
so that we provide feedback that moves learning forward Establish norms for combining synchronous and face to face

environments in simultaneous learning. Importantly, we have to set up the environment for our Roomies and Zoomies to learn together. Develop learning experiences and tasks that maximize learner engagement for all learners in all settings. Focus on acceleration and learning recovery. In other words, no more deficit thinking. Our students are where they are, and there are specific things that we can do to ensure their learning. Implement the guide's many resources, strategies, and templates. None of us chose to be in a situation where some learners are physically in our classrooms while others attend virtually and remotely write. Doug, Nancy, John, and Aleigha. However, what we hope to convey is that we've got this. While the context is different, the principles behind clarity, planning, high-yield strategies, and interventions, student learning, and assessment hold steady. This is where *The Quick Guide to Simultaneous Hybrid and Blended Learning* will prove indispensable on this next leg of our journey.
