

If EVERYONE sees people, situations,
the world DIFFERENTLY...

Is this a good / bad thing?

Is what we read /see true?

Are there any actual
“facts”?

What factors shape our
perceptions of the world?

*How does perception/perspective affect
everything we know or learn?*

That Perception Thing

That Perception Thing:

The Blackwell Guide to Hegel's Phenomenology of Spirit Kenneth R. Westphal, 2009-02-11 Providing a groundbreaking collective commentary by an international group of leading philosophical scholars Blackwell's Guide to Hegel's Phenomenology of Spirit transforms and expands our understanding and appreciation of one of the most challenging works in Western philosophy Collective philosophical commentary on the whole of Hegel's Phenomenology in sequence with the original text Original essays by leading international philosophers and Hegel experts Provides a comprehensive Bibliography of further sources

Phenomenology of Perception Maurice Merleau-Ponty, 2002-03-14 Challenging and rewarding in equal measure Phenomenology of Perception is Merleau-Ponty's most famous work Impressive in both scope and imagination it uses the example of perception to return the body to the forefront of philosophy for the first time since Plato Drawing on case studies such as brain damaged patients from the First World War Merleau-Ponty brilliantly shows how the body plays a crucial role not only in perception but in speech sexuality and our relation to others

Beyond Meaning: A Journey Across Language, Perception and Experience Gaetano Fiorin, Denis Delfitto, 2020-06-17 Natural languages idioms such as English and Cantonese Zulu and Amharic Basque and Nicaraguan Sign Language allow their speakers to convey meaning and transmit meaning to one another But what is meaning exactly What is this thing that words convey and speakers communicate Few questions are as elusive as this Yet few features are as essential to who we are and what we do as human beings as the capacity to convey meaning through language In this book Gaetano Fiorin and Denis Delfitto disclose a notion of linguistic meaning that is structured around three distinct yet interconnected dimensions a linguistic dimension relating meaning to the linguistic forms that convey it a material dimension relating meaning to the material and social conditions of its environment and a psychological dimension relating meaning to the cognitive lives of its users By paying special attention to the puzzle surrounding first person reference the way speakers exploit language to refer to themselves and by capitalizing on a number of recent findings in the cognitive sciences Fiorin and Delfitto develop the original hypothesis that meaningful language shares the same underlying logical and metaphysical structure of sense perception effectively acting as a system of classification and discrimination at the interface between cognitive agents and their ecologies

Maurice Merleau-Ponty: Basic Writings Thomas Baldwin, 2004-02-24 Merleau-Ponty was a pivotal figure in twentieth century French philosophy He was responsible for bringing the phenomenological methods of the German philosophers Husserl and Heidegger to France and instigated a new wave of interest in this approach His influence extended well beyond the boundaries of philosophy and can be seen in theories of politics psychology art and language This is the first volume to bring together a comprehensive selection of Merleau-Ponty's writing Sections from the following are included The Primacy of Perception The Structure of Behaviour The Phenomenology of Perception The Prose of the World The Visible and the Invisible Sense and Non Sense The Adventures of the Dialectic In a substantial critical introduction Thomas Baldwin provides a critical discussion of the main

themes of Merleau Ponty s philosophy connecting it to subsequent philosophical debates and setting it in the context of the ideas of Bergson Husserl Heidegger and Sartre Each text is also prefaced with an explanation which sets it in its context in Merleau Ponty s work and there are extensive suggestions for further reading to enable students to pursue the issues raised by Merleau Ponty Thus the book provides the ideal materials for students studying Merleau Ponty for the first time **The Arena** ,1895 *Early Buddhist Discourses* ,2006-03-15 Twenty discourses from the Pali Canon including those most essential to the study and teaching of early Buddhism are provided in fresh translations accompanied by introductions that highlight the main themes and set the ideas presented in the context of wider philosophical and religious issues Taken together these fascinating works give an account of Buddhist teachings directly from the earliest primary sources In his General Introduction John J Holder discusses the structure and language of the Pali Canon its importance within the Buddhist tradition and the historical context in which it developed and gives an overview of the basic doctrines of early Buddhism
