**Psychology's Interpretive Turn** Barbara S. Held, 2007 Two of the most fundamental and pervasive philosophical questions in psychology are Is objective psychological truth possible and how does that possibility pertain to human agency or our capacity for self determination For over 25 years postmodern theorists have maintained that an antiobjectivist or antirealist philosophy enhances human agency by making us free to be what we interpret ourselves to be However in the last decade a new wave group of theorists with hermeneutic pragmatic and constructionist origins has put forth views that are replacing those of conventional postmodernists Their dual mission is to defend the realism denied by postmodern antirealist psychologists while upholding the agency they believe to be denied by modern objectivist psychologists

**The Postmodern Presence** Arthur Asa Berger, 1998 Instead of summing up the various perspectives of scholars and the variety of ideas to which the term postmodernism has been assigned this text lets this diversity speak for itself By bringing together articles and essays on the impact of the postmodern temper on an eclectic range of subjects Berger presents a few of the many ways different theorists have come to terms with postmodernism while examining manifestations of postmodernism in the culture of everyday life
