**Narrative and Critical History of America: English explorations and settlements in North America, 1497-1689.** [c1884] Justin Winsor, 1884 **Virginia's Western Visions** Leslie Scott Philyaw, 2004. Once all the world was Virginia, an exaggerated truism to be sure, but in the early eighteenth century there seemed no limit on the Old Dominion's possibility for growth, particularly in the eyes of the state's Tidewater elite. Wealthy tobacco barons monopolized thousands of acres along Virginia's frontier, and early leadership, including William Byrd, Thomas

Jefferson and George Washington saw the generous possibilities in the expanse of lands to their west In 1705 Virginia planter and historian Robert Beverly confidently foresaw the day when Virginia s settlements would reach the California Sea In Virginia s Western Visions L Scott Philyaw examines the often tumultuous history of Virginia s westward expansion Land the foundation to tobacco cultivation and slavery obsessed early Virginians Land acquisition was also a necessary step in dispossessing Virginia s native inhabitants replacing them with Europeans and Africans The relationship between Virginia s Tidewater elite and the hinterland was never simple however The backcountry s economic potential was undeniable as was the possibility for colonization but elites feared the threat of Native American nations and the western border was consistently a source of unrest For many English colonists the inland wilderness was terrifying and Philyaw argues that attitudes toward the different peoples of the frontier Native Americans French Catholic villagers and German and Ulster Scot immigrants shed light on the cultural and ethnic assumptions of the architects of the American republic By the early nineteenth century the optimism of the Revolutionary generation had faded New western states competed with Virginia for markets settlers and investments and wealthy planters began abandoning the Old Dominion taking their portable slave wealth with them As the War of Independence came to an end an independent Virginia actually began losing territory the war weary and impoverished state could no longer control the western lands its leadership had worked so tirelessly to acquire Leaders now turned to the new national government to accomplish their aims of creating a series of western states that would share Virginia s interests They failed and in the antebellum era Virginia s elite more often allied with states to the south rather than those that were once part of the Old Dominion From the earliest settlement of the area Virginians wrestled with both the political and cultural meaning of Virginia By examining the changing attitudes toward the early West Virginia s Western Visions offers a fascinating glimpse into the dreams of the Old Dominion s early leaders the challenges that faced them and their vision for Virginia s future L Scott Philyaw is associate professor of history at Western Carolina University He is a contributor to *After the Backcountry Rural Life in the Great Valley of Virginia 1800 1900* and his articles and reviews have appeared in the *Virginia Magazine of History and Biography* the *Journal of the Early Republic* and others [Guide to the Study of American History](#) Edward Channing, 1896 **The History of the United States of America** Richard Hildreth, 1874 **The History of the First Discovery and Settlement of Virginia - Primary Source Edition** William Stith, 2013-12-11 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book [The History of the United States of America: Revolutionary, 1773-1789](#) Richard Hildreth, 1877 [The History of the First Discovery and](#)
