## **The White Conscience:**

**Martin Luther King, Jr., and the Theology of Resistance** Rufus Burrow, Jr., 2014-12-08 It has been nearly fifty years since Martin Luther King Jr was assassinated at the Lorraine Motel in Memphis Tennessee Appraisals of King s contributions began almost immediately and continue to this day The author explores a great many of King s chief ideas and socio ethical practices his concept of a moral universe his doctrine of human dignity his belief that not all suffering is redemptive his brand of personalism his contribution to the development of social ethics the inclusion of young people in the movement sexism as a contradiction to his personalism the problem of black on black violence and others The book reveals both the strengths and the limitations in King s theological socio ethical project and shows him to have relentlessly applied personalist ideas to organized nonviolent resistance campaigns in order to change the world Instructors considering this book for use in a course may request an examination copy here

**Conscience of a Troubled South** Irwin Klibaner, 1989 **Psychology: the Motive Powers, Emotions, Conscience, Will** James McCosh, 1887 In this volume I unfold the characteristics of the motive powers as they are called the orective the appetent the impulsive powers the feelings the sentiments the affections the heart as distinguished from the Gnostic the cognitive the intellect the understanding the reason the head These motive powers fall under three heads the emotions the conscience the will It is not to be understood that these are unconnected with each other or with the cognitive emotions contain an idea which is cognitive The conscience may be regarded as combining characteristics of each of the two grand classes being cognitive as discerning good and evil and motive as leading to action the will has to use the other powers as going on to action Emotion occupies more room than the other two in this treatise inasmuch as its operations are more varied and as the account usually given of it so it appears to me is more defective Introduction PsycINFO Database Record c 2010 APA all rights reserved
