War, Black Soldiers Bakary Diallo, Lamine Senghor, 2021-02-24 Strength and Goodness Force Bont by Bakary Diallo is one of the only memoirs of World War I ever written or published by an African. It remains a pioneering work of African literature as well as a unique and invaluable historical document about colonialism and Africa's role in the Great War. Lamine Senghor's *The Rape of a Country* (*La Violation d'un pays*) is another pioneering French work by a Senegalese veteran of World War I but one that offers a stark contrast to *Strength and Goodness*. Both are made available for the first time in English in this edition complete with a glossary of terms and a general historical introduction. The centennial of World War I is an ideal moment to present *Strength and Goodness* and *The Rape of a Country* to a wider English reading public. Until recently Africa's role in the war has been neglected by historians and largely forgotten by the general public. Eurocentric versions of the war still predominate in popular culture. Many historians however now insist that African participation in the 1914-18 War is a large part of what made that conflict a world war.

Frontline Anthony King, 2015 The volume examines the experiences of professional Western combat soldiers training and operations in Iraq and seeks to explain the culture, motivations and capabilities of the professional soldier in the twenty-first century.

The Combat Soldier Anthony King, 2013-02-21 A work of historical comparative sociology examining the evolution of infantry tactics in the American, Australian, Canadian, British, French, German and Italian armies from the First World War to the present. It addresses a key question in the social sciences of how social solidarity/cohesion is generated and sustained.

Hubert Harrison Jeffrey B. Perry, 2020-12-22 The St. Croix born Harlem based Hubert Harrison (1883-1927) was a brilliant writer, orator, educator, critic and activist who combined class consciousness and anti-white supremacist race consciousness into a potent political radicalism. Harrison's ideas profoundly influenced New Negro militants including A. Philip Randolph and Marcus Garvey and his work is a key link in the two great strands of the Civil Rights/Black Liberation struggle: the labor and civil rights movement associated with Randolph and Martin Luther King Jr. and the race and nationalist movement associated with Garvey and Malcolm X. In this second volume of his acclaimed biography Jeffrey B. Perry traces the final decade of Harrison's life from 1918 to 1927. Perry details Harrison's literary and political activities foregrounding his efforts against white supremacy and for racial consciousness and unity in struggles for equality and radical social change. The book explores Harrison's role in the militant New Negro Movement and the International Colored Unity League as well as his prolific work as a writer, educator and editor of the *New Negro* and the *Negro World*. Perry examines Harrison's interactions with major figures such as Garvey, Randolph, J. A. Rogers, Arthur Schomburg and other prominent individuals and organizations as he agitated, educated and organized for democracy and equality from a race-conscious radical internationalist perspective. This magisterial biography demonstrates how Harrison's life and work continue to offer profound insights on race, class, religion, immigration, war, democracy and social change in America.
