

A transformation from vertical society to horizontal society is taking place

The Horizontal Society

José Faur

The Horizontal Society:

The Horizontal Society Lawrence Meir Friedman, 1999-01-01 This book argues that modern technology has radically and irretrievably altered our sense of identity and hence our social political and legal life In traditional societies relationships and identities were strongly vertical there was a clear line of authority from top to bottom and identity was fixed by one's birth or social position But in modern society identity and authority have become much more horizontal people feel freer to choose who they are and to form relationships on a plane of equality The author examines how modern life centers on human identity seen in terms of race gender ethnicity and religion and how this new way of defining oneself affects politics social structure and the law He claims that our horizontal society is the product of the mass media in particular television which break down the isolation of traditional life and allow individuals to connect with like minded others across barriers of space and time As horizontal groups blossom loyalties and allegiances to smaller groups fragment what seemed to be the unity of the larger nation In addition the media's ability to spread a global mass culture causes a breakdown of cultural isolation that leads to more immigration and heavy pressure on the laws and institutions of citizenship and immigration

The Horizontal Society José Faur, 2008 The Horizontal Society is an exposition of rabbinic thought as exemplified by Maimonides The thought streams of Greece Rome and Christendom serve as a contrast This work is in the Hebrew rhetorical tradition of melisa The main text in five sections The God of Israel The Books of Israel The Governance of Israel The Memory of Israel and The Folly of Israel focuses on these core matters It includes numerous references to orient the reader The mode is similar to the author's previous work such as Golden Doves with Silver Dots Semiotics and Textuality in Rabbinic Tradition interacting with the latest thought from today's academy This book illustrates the horizontal organization of the Jewish people Other social organization is based on hierarchy Two principles made this difference possible for Israel First the Hebrew Scriptures alone propose that every human being is created in the image of God This necessitates the absolute equality of every human being Second the Sinai covenant establishes the Law as the supreme authority Whereas in other societies might is the source of authority in Judaism authority is limited by the Law These principles were summarized by the last Prophet of Israel Has not one God created us Why do we deal treacherously profaning the covenant of our fathers Mal 2 10 There is a subdivided bibliography of forty pages including both Jewish and Western sources The scholarly apparatus includes indices of terms names and subjects There are also seventy appendices of interest to rabbinic readership

Jose Faur José Faur, Joseph Faur, 2024 Masterfully illuminating the timeless wisdom of the Geonim and ancient sages of Sepharad alongside the works of Maimonides akham Dr Jos Faur's Tora offers an unparalleled outlook on Judaism combining ancient traditions with contemporary disciplines The Collected Works of Hakham Dr Jos Faur is a multi volume set offering readers an opportunity to delve into his unique understanding of Tora which was nearly washed away by the oceans of time This first volume focuses on Faur's societal and political ideas In his paradigm

shifting book *The Horizontal Society* Faur explores how Jewish society is built on a horizontal structure emerging from a voluntary covenant with God unlike vertical societies where authority is derived from power Elucidating the pivotal role the Law plays in shaping Jewish society he lays out the fundamental principles that underpin this unique structure Two previously unpublished works *Forbidden Meditations* and *Text and Society* further build on this idea *Forbidden Meditations* a holistic guide to Faur's worldview discusses the invasion of mental assimilation through Western modes of thinking that displace Jewish norms and values Tackling these complex and relevant ideas Faur draws from his own life stories to elucidate and demonstrate various ideas In *Text and Society* Faur asserts that to understand Jewish texts it is necessary to move beyond philological and literary standards and to examine the living traditions of the Oral Tora transmitted by God to Israel Complementing these three books is a collection of articles and essays Faur penned for different publications covering diverse contemporary topics and adding further valuable insight into his thinking

On Rules Gherardo Colombo, 2015-11-13 When talking about justice we mean more than its day today administration involving officials institutions and those most affected We also refer to an ideal a set of basic values which guide living together and infuse the distribution of rights and duties options and obligations freedoms and restrictions Losing this reference point means the administration of justice will suffer too by having lost its sense of direction With thirty years experience in the Italian judiciary and dozens of influential judicial inquiries to his name Gherardo Colombo reflects on the culture of justice and the profound meaning of rules Without respecting rules we cannot live in society
