**Life Support Leader's Handbook**, 1993 *Rethinking Leadership for Clinical, Counselling and Health Psychologists*

Amra Saleem Rao, 2025-12-22 This pioneering book offers a bold psychologically informed take on leadership for today's complex and evolving systems. Written for clinical counselling and health psychologists, it challenges traditional models and reframes leadership as a dynamic, adaptive and systems-aware practice. With a distinctive triadic lens looking within, between and across systems, it integrates psychological theory, organisational insight and systems thinking to explore how identity, emotion, power and context shape leadership and followership in real-world environments. It offers practical tools to navigate relational challenges, manage work pressures, foster psychological safety and lead with purpose through conflict, change and uncertainty. Grounded in lived experience and learning in action, this book shows how leadership is co-created through reflective and reflexive practice, inclusive collaboration and ethical influence. It argues that sustainable transformational change requires strategic focus, courageous engagement with power dynamics and support for leadership at all levels. Essential reading not only for psychologists, managers and aspiring leaders but for anyone interested in creating healthier, more equitable workplaces and leading with courage, compassion and systemic insight. **Strategic Public Relations**

This edition further develops the pioneering approach to integrating thinking around public relations leadership and strategy. It has been updated comprehensively to address contemporary developments and introduce new research and fresh perspectives from the authors. New to this edition are insights from Chief Executives on what they expect from public relations leaders and a comprehensive set of capabilities which scope the demanding role of professionals at the top of their game.
