Eugen Kusch,1959     The immortal Nuremberg ([Unvergängl. Nürnberg, engl.] Transl. by Andrew L. White. 4. ed.) Eugen Kusch,Andrew L. White,1969     **The immortal Nuremberg [Unvergängliches Nürnberg, engl.] (Transl. by Andrew L.White 5.ed.)** Eugen Kusch,1972     **The immortal Nuremberg [Unvergängliches Nürnberg, engl.] (Transl. by Andrew L. White. 3. ed. with completely rev. text and illustr.)** Eugen Kusch,1965     Nuremberg Stephen Brockmann,2006 Nuremberg The Imaginary Capital is a broad study of German cultural and intellectual history since 1500 with a particular emphasis on the period from 1800 to the present The book explores the ways in which Germans over the past two centuries have imagined Nuremberg as a cultural and spiritual capital focusing feelings of national identity and belonging on the city or on their Images of it Nuremberg The Imaginary Capital analyzes the way in which a particular city came to be seen in Germany and elsewhere as representative of the national whole The book goes beyond the analysis of particular historical periods by showing how successive epochs images of Nuremberg built on those preceding them thus German cultural and intellectual history is shown as an intelligible unity centered around fascination with and veneration for a particular city     *The Legal Regime of the International Criminal Court* José Doria,Hans-Peter Gasser,M. Cherif Bassiouni,2009 This impressive and unique collection of essays covers important aspects of the legal regime of the International Criminal Court ICC The volume begins with an analysis of the historical development of the ICC the progressive development of international humanitarian and international criminal law by the ad hoc Tribunals and the work of mixed national international jurisdictions The legal and institutional basis of the ICC is then dealt with in detail including the organs of the ICC war crimes crimes against humanity and crimes of aggression modes of liability before the ICC and defences before the ICC Part III focuses on the court at work including its procedural rules criminal proceedings at the ICC penalties and appeal and revision procedures Part IV deals with the relationship of the ICC with states and international organizations The contributors are established scholars in the field of international criminal and humanitarian law many of whom are practitioners in the various tribunals     *A Noble Treason* Richard Hanser,2012-08-22 Sophie Scholl and her brother Hans were handsome bright university students in 1942 Germany As members of the Hitler Youth they had once been enthusiastic supporters of the German renewal promised by National Socialism But as their realization of Nazi barbarism grew so did their moral outrage Hans and Sophie formed a small group of like minded friends which initially included two medical students a student of philosophy and a fifty year old professor They self identified as Christians from various traditions Protestant Catholic and Orthodox and they called themselves the White Rose In a darkened studio lent them by an artist they printed eloquent anti Nazi leaflets which they ingeniously spread throughout Germany A Noble Treason tells the true story of this underground group at the University of Munich that

instigated organized and carried out the first overt resistance to Hitler's regime What gives A Noble Treason its unforgettable and inspiring quality is the personality character and courage of the White Rose members as they resisted the pull of wartime patriotism and overcame their fear of the terrible price they would pay for their dissidence The story of the White Rose is one of faith inspired idealism in deadly conflict with ideological tyranny Its theme is the ultimate victory of that idealism despite its bloody and seemingly final destruction by the state

*The Conservation Movement* Miles Glendinning, 2013 Winner of the 2016 Antoinette Forrester Downing Award presented by the Society of Architectural Historians In many cities across the world particularly in Europe old buildings form a prominent part of the built environment and we often take it for granted that their contribution is intrinsically positive How has that widely shared belief come about and is its continued general acceptance inevitable Certainly ancient structures have long been treated with care and reverence in many societies including classical Rome and Greece But only in modern Europe and America in the last two centuries has this care been elaborated and energised into a forceful dynamic ideology a Conservation Movement infused with a sense of historical destiny and loss that paradoxically shared many of the characteristics of Enlightenment modernity The close inter relationship between conservation and modern civilisation was most dramatically heightened in periods of war or social upheaval beginning with the French Revolution and rising to a tragic climax in the 20th century age of totalitarian extremism more recently the troubled relationship of heritage and global commercialism has become dominant Miles Glendinning's new book authoritatively presents for the first time the entire history of this architectural Conservation Movement and traces its dramatic fluctuations in ideas and popularity ending by questioning whether its recent international ascendancy can last indefinitely
