**Postapocalyptic Fiction and the Social Contract** Claire P. Curtis, 2010-07-17 Postapocalyptic Fiction and the Social Contract We'll Not Go Home Again provides a framework for our fascination with the apocalyptic events. The popular appeal of the end of the world genre is clear in movies, novels, and television shows. Even our political debates over global warming, nuclear threats, and pandemic disease reflect a concern about the possibility of such events. This popular fascination is really a fascination with survival: how can we come out alive? And what would we do next? The end of the world is not about species death but about beginning again. This book uses postapocalyptic fiction as a terrain for thinking about the state of nature, the hypothetical fiction that is the driving force behind the social contract. The first half of the book examines novels that tell the story of the move from the state of nature to civil society through a Hobbesian, a Lockean, or a Rousseauian lens, including *Lucifer's Hammer* by Larry Niven and Jerry Pournelle, *Alas Babylon* by Pat Frank, *Malevil* by Robert Merle, and *Into the Forest* by Jean Hegland. The latter half of the book examines Octavia Butler's postapocalyptic Parable series, in which a new kind of social contract emerges, one built on the fact of human dependence and vulnerability.

**Science Fiction as Legal Imaginary** Alex Green, Mitchell Travis, Kieran Tranter, 2024-11-21 This book examines how science fiction informs the legal imagination of technological futures. Science fiction, the contributors to this book argue, is a storehouse of images, tropes, concepts, and memes that inform the legal imagination of the future and, in doing so, generate impetus for change. Specifically, the contributors examine how science fiction imagines human life in space, in the digital, and as formed and negotiated by corporations. They then connect this imaginary to how law should be understood in the present and changed for the future. Across the chapters, there is an urgent sense of the need for law as it is, has been, and as it might become to order and safeguard the future for a multiplicity of vulnerable entities. This book will appeal to scholars and students with interests in law and technology, legal theory, cultural legal studies, and law and the humanities.
