Unruly Gods:

Unruly Gods Meir Shahar, Robert P. Weller, 1996-08-01 The first study in English to offer a systematic introduction to the Chinese pantheon of divinities It challenges received wisdom about Chinese popular religion which until now presented all Chinese deities as mere functionaries and bureaucrats The essays in this volume eloquently document the existence of other metaphors that allowed Chinese gods to challenge the traditional power structures and traditional mores of Chinese society The authors draw on a variety of disciplines and methodologies to throw light on various aspects of the Chinese supernatural The gallery of gods and goddesses surveyed demonstrates that these deities did not reflect China's socio-political order but rather expressed and negotiated tensions within it In addition to reflecting the existing order Chinese gods shaped it transformed it and compensated for it and as such their work offers fresh perspectives on the relations between divinity and society in China

Rites of Belonging Jean DeBernardi, 2004-02-19 In what is today Malaysia the British established George Town on Penang Island in 1786 and encouraged Chinese merchants and laborers to migrate to this vibrant trading port In the multicultural urban settlement that developed the Chinese immigrants organized their social life through community temples like the Guanyin Temple Kong Hok Palace and their secret sworn brotherhoods These community associations assumed exceptional importance precisely because they were a means to establish a social presence for the Chinese immigrants to organize their social life and to display their economic prowess The Confucian cult of memory also took on new meanings in the early twentieth century as a form of racial pride In twentieth century Penang religious practices and events continued to draw the boundaries of belonging in the idiom of the sacred Part I of Rites of Belonging focuses on the conjuncture between Chinese and British in colonial Penang The author closely analyzes the 1857 Guanyin Temple Riots and conflicts leading to the suppression of the Chinese sworn brotherhoods Part II investigates the conjuncture between Chinese and Malays in contemporary Malaysia and the revitalization in the 1970s and 1980s of Chinese popular religious culture

Penang Jean Elizabeth DeBernardi, 2009 [Making Local China](#) Xue Li, 2018 This book presents a case study on the city of Yangzhou in China from 1853 to 1928 During this time the local society of Yangzhou experienced profound changes towards modernization when the nation state of China gradually took shape at the local level Yangzhou under the Qing was transformed into Yangzhou under modern China The diverse interactions between the Protestant missions and the multiple actors in the local society kept generating new local context and giving special input to the shaping of modernity in the local society This study analyses the changing situations of the local society as well as the role of Protestant Church as part of the local social fabric and tries to achieve a better understanding of how modern China developed out of armed conflicts power play and cooperations among different actors in the local society

Reimagining Chan Buddhism Jimmy Yu, 2021-11-14 This book is the first socio-intellectual history of the Dharma Drum Lineage of Chan Zen a new lineage of Buddhism founded by the late Chinese Buddhist cleric Sheng Yen 1931-2009 arguably one of the most influential Chan

masters in contemporary times The book challenges the received academic and popular image of Chan Buddhism as a meditation school that bypasses scriptural learning Using Sheng Yen s doctrinal classification Chn panjiao chart as an example the book shows Sheng Yen s Chan as a synthesis of both Indian and Chinese premodern forms of Buddhism and as the summum bonum of Han transmission of Chinese Buddhism Chn Hanchuan fojiao The book demonstrates how Sheng Yen s presentation of Chan was intimately related to the volatile social and political realities of his life the Communist takeover of China and the subsequent industrial boom that impacted Taiwanese society In short this book presents a historically and culturally embodied approach to the formation of Buddhist doctrine and practice Drawing on the works of postcolonial theories that integrate the role of the researcher into the research the book also offers a more integrated approach between emic and etic insider and outsider perspectives to research Advancing the field of Buddhist studies the book will be of interest to scholars of Buddhism in the modern period twentieth century religious history of China and Taiwan Chan Zen studies World Religions Asian civilizations and Modern Biographies
