**The Routledge Companion to the Philosophy of Architectural Reconstruction** Zoltán Somhegyi, Lisa Giombini, 2024-05-30 This companion investigates the philosophical and theoretical foundations determining the conditions of possibility and the limits that make the conservation readaptation and transformation of past buildings legitimate operations As increasing ecological and economic challenges question opportunities for new construction the process of restoring transforming and readapting buildings for new or continued use is becoming an essential part of architectural practice At the same time the role of building conservation is changing from mere material preservation to being part of a broader strategy for social regeneration eco awareness and inclusive urban planning Chapters of this volume explore the complex set of considerations that inform decisions to merely preserve accurately restore or variously reuse a building They also look at the broader philosophical concerns such as ethical and aesthetic values combined with ideas of heritage history and collective identity Case studies on reconstruction after war gentrification the restoration of ancient edifices reconstruction following the effects of climate change and the use of technology solutions among many others make this a timely and urgent volume Adopting a broad transcultural perspective with contributions from five continents the volume combines theoretical approaches with more practical case study based investigations and will be of great interest to upper level students and

Ecological Restoration and the U.S. Nature and Environmental Writing Tradition Laura Smith,2022-01-12 This book presents a critical history of the intersections between American environmental literature and ecological restoration policy and practice Through a storying restorying restoring framework this book explores how entanglements between writers and places have produced literary interventions in restoration politics The book considers the ways literary landscapes are politicized by writers themselves and by conservationists activists policymakers and others in defense of U S public lands and the idea of wilderness The book profiles five environmental writers and examines how their writings on nature wildness wilderness conservation preservation and restoration have variously inspired and been translated into ecological restoration programs and campaigns by environmental organizations The featured authors are Henry David Thoreau 1817 1862 at Walden Pond John Muir 1838 1914 in Yosemite National Park Aldo Leopold 1887 1948 at his family s Wisconsin sand farm Marjory Stoneman Douglas 1890 1998 in the Everglades and Edward Abbey 1927 1989 in Glen Canyon This book combines environmental history literature biography philosophy and politics in a commentary on considering and developing environmental literature s place in conversations on restoration ecology ecological restoration and rewilding *Hiking through History New England* Johnny Molloy,2015-04-01 Whether you re a curious tourist or a local history buff this guide contains all the tools you ll need to explore New England s history on your hikes Each of the 40 featured hikes comes with helpful maps and directions as well as a carefully researched impression of the trail and a comprehensive guide to the area s natural and human history *Walden* Henry David Thoreau,1895 **The Abuse of a Public Trust** David E. Rabinowitz,1986 **Walden, Or, Life in the Woods** Henry David Thoreau,1995 The author s famous work on his time living on the shores of Walden Pond and ruminating on nature life and human existence A History of American Literature Fred Lewis Pattee,1896 Proceedings of the Boston Society of Natural History Boston Society of Natural History,1892 *Walden Henry David Thoreau Illustrated* Henry David Thoreau,2021-05-30 In 1845 Thoreau moved to a cabin that he built with his own hands along the shores of Walden Pond in Massachusetts Shedding the trivial ties that he felt bound much of humanity Thoreau reaped from the land both physically and mentally and pursued truth in the quiet of nature In Walden he explains how separating oneself from the world of men can truly awaken the sleeping self Thoreau holds fast to the notion that you have not truly existed until you adopt such a lifestyle and only then can you reenter society as an enlightened being These simple but profound musings as well as Civil Disobedience his protest against the government s interference with civil liberty have inspired many to embrace his philosophy of individualism and love of nature **History of Monmouth and Wales** Harry Hayman Cochrane,1894 **Walden** Henry David Thoreau,2020-03-21 In 1845 Henry David Thoreau left his pencil manufacturing business and began building a cabin on the shore of Walden Pond near Concord Massachusetts This lyrical yet practical minded book is at once a record of the 26 months Thoreau spent in withdrawal from society an account of

the daily minutiae of building planting hunting cooking and always observing nature and a declaration of independence from the oppressive mores of the world he left behind Elegant witty and quietly searching Walden remains the most persuasive American argument for simplicity of life clarity of conscience When I wrote the following pages or rather the bulk of them I lived alone in the woods a mile from any neighbor in a house which I had built myself on the shore of Walden Pond in Concord Massachusetts and earned my living by the labor of my hands only I lived there two years and two months At present I am a sojourner in civilized life again I should not obtrude my affairs so much on the notice of my readers if very particular inquiries had not been made by my townsmen concerning my mode of life which some would call impertinent though they do not appear to me at all impertinent but considering the circumstances very natural and pertinent Some have asked what I got to eat if I did not feel lonesome if I was not afraid and the like Others have been curious to learn what portion of my income I devoted to charitable purposes and some who have large families how many poor children I maintained I will therefore ask those of my readers who feel no particular interest in me to pardon me if I undertake to answer some of these questions in this book In most books the I or first person is omitted in this it will be retained that in respect to egotism is the main difference We commonly do not remember that it is after all always the first person that is speaking I should not talk so much about myself if there were anybody else whom I knew as well Unfortunately I am confined to this theme by the narrowness of my experience Moreover I on my side require of every writer first or last a simple and sincere account of his own life and not merely what he has heard of other men s lives some such account as he would send to his kindred from a distant land for if he has lived sincerely it must have been in a distant land to me Perhaps these pages are more particularly addressed to poor students As for the rest of my readers they will accept such portions as apply to them I trust that none will stretch the seams in putting on the coat for it may do good service to him whom it fits
