## **Special Edition Using Java:**

*Special Edition Using Java 2* Brian Keeton, Chuck Cavaness, Geoff Friesen, 2001 An epic fantasy adventure that will make you laugh and cry You ll fall in love with some characters and hate the others Elves Giants Druids Dwarves and wraiths What more could you desire

*Special Edition Using Java 2* Mark Wutka, 2001 **Special Edition Using Java 2** Mark Wutka, 2001 Special Edition Using Java 2 Mark Wutka, 2001 Java 2 Enterprise Edition is a combination of Java related technologies including Java Server Pages Servlets and Enterprise Java Beans Working together these pieces make Java a viable solution for enterprise scale applications SE Using J2EE starts with a section covering the core J2EE components and how they fit into the overall application architecture The book then builds off this foundation to explore the practical applications of J2EE including incorporating XML into J2EE creating wireless Web applications network programming with J2EE managing security and encryption object programming with Serialization and Reflection and programming Java applets in the enterprise Later chapters discuss alternative approaches to solving problems in J2EE applications including debugging decompiling and disassembly The book finishes with a useful reference section discussing each of the core J2EE APIs

*Special Edition Using SOAP* John Mueller, 2002 This book will introduce the reader to SOAP and serve as a comprehensive reference to both experienced and new developers in the area Only one other book completely dedicated to SOAP is currently on the market and it has strong sales because no other information is available SE Using SOAP will capture more readers than the competition because it provides real world examples and troubleshooting with complete data conversion information The emphasis will be on getting started fast instead of reading through white paper style theory in hopes of finding applicable information By reading this book and working through the examples the reader will be well versed in SOAP and its applications immediately SE Using SOAP includes difficult to find information on how SOAP works with different languages and protocols including Visual Basic NET Visual Basic 6 C XML HTTP SDL DISCO COM SQL Server plus much more Also covers how to work with PDAs an ever growing need in the data transfer market

**Using Java Server Pages and Servlets** Mark Wutka, 2000 *Special Edition Using JSP and Servlets* starts by detailing the evolution of web servers that led to the creation of ASP and JSP It explains both the limitations of previous technologies and the benefits that JSP provides including platform independence Includes coverage of organizing applications with multiple files and client side objects generating well formed XML using JSP storing data in cookies and sessions interacting with Enterprise Java Beans displaying dynamic graphics with Java 2D and using RMI and Corba to enhance JSP applications The final chapters demonstrate advanced JSP Servlet techniques including using JSP to create wireless XML based applications Appendices provide an overview of popular JSP Servlet runtime environments including Jrun Tomcat and ServletExec

**Special Edition Using XML** Lee Anne Phillips, 2000 The most current and up to date XML book covering many new W3C specifications

**Java Web Services Unleashed** Robert J. Brunner, 2002 This text provides Java developers with in depth

coverage of Web Services technology It includes contributions from recognised Web Services experts and architects including the Web Services team at IBM

**Using XSLT** Michael Floyd, 2002 Special Edition Using XSLT starts with an overview explaining how XSLT fits into the bigger picture of the Extensible Stylesheet Language and the differences between XSLT and XSL FO It then demonstrates practical examples of XSL transformations from XML to a variety of other useful formats including HTML PDF SVG and others Later chapters discuss developer techniques for implementing XSLT within dynamic web environments including ASP and JSP The author also covers debugging techniques and how XSLT relates to NET The book finishes with a useful reference section including detailed coverage of XSLT XPath and XSL FO

*Special Edition Using Active Server Pages* Scot Johnson, Keith Ballinger, Davis Howard Chapman, 1997 Presenting readers with an up to date look at how to create dynamic personalized web sites for both business and personal use this text focuses more on implementing Active Server Pages rather than on the theory behind working with Active Server Pages It includes new functionality available with the release of Microsoft's Internet Information Server 4.0

**BEA WebLogic Workshop** Joe Weber, Mark Wutka, 2003 BEA WebLogic Workshop is a rapid application development tool that makes building Java based Web service applications simple With just a basic foundation of Java programming you can use WebLogic Workshop to develop Web services BEA WebLogic Workshop Kick Start provides everything you need to get started with WebLogic Workshop including a quick Java primer and appendixes covering the essentials of XML SOAP and WSDL Learn the features of WebLogic Workshop and review hundreds of code examples and explore the inner workings of this new tool The book's CD ROM contains all the source code and examples from the book plus a 90 day trial version of BEA WebLogic Platform which includes WebLogic Workshop

Foreword Web services have attracted much attention recently as the next big thing in computing technology Vendors of all shapes and sizes have announced their support for Web services technologies and every month a new Web services conference is popping up somewhere on the globe With all this hype and attention sometimes it's difficult to really discover what Web services are where they fit in your company what the business case is and how you can actually get started taking advantage of this technology BEA has been working with customers to answer many of these questions and provide solutions that enable companies to easily construct Web services that meet their needs today Contrary to the common conception of Web services as a consumer focused technology Web services may have the greatest potential as a technology inside enterprises as a new way of tying disparate applications together using standards based technologies To make Web services really work in the enterprise however it's essential that they meet core enterprise requirements Web services applications have to exist in a constantly changing IT environment where different applications are built and modified by different people on different schedules They must accommodate everything from modern J2EE based applications to legacy systems to applications at business partners They must be able to handle rich and complex information and transmit it between internal and external applications They must easily interact with other applications to leverage

existing investments They must be robust reliable and they must perform Perhaps most important of all they have to be easy to build For Web services to flourish within an organization all developers will need to be able to build Web services that meet these requirements BEA WebLogic Workshop Kick Start introduces you to BEA's new WebLogic Workshop product a development tool and runtime framework that makes it easy to build powerful Web services that take advantage of the robust enterprise features of the WebLogic J2EE application server WebLogic Workshop provides a graphical tool that makes it easy to visualize develop and test Web service applications and visual controls that dramatically simplify access to existing resources like databases packaged applications Enterprise Java Beans and other Web services The Workshop framework provides out of the box support for building Web services that are loosely coupled so that the internal implementation details of an application can be cleanly separated from the public contract that a Web service offers to other applications This makes Workshop Web services flexible in the face of a constantly changing IT environment Workshop also provides built in support for asynchronous messaging so that Web service applications can carry on rich two way conversations with their clients and accommodate interaction with legacy systems and human users Finally Workshop supports easy manipulation of coarse grained messages so that rich documents can be handled without resorting to tedious XML DOM programming All of these capabilities can be accessed in a simple declarative fashion that enables all developers not just J2EE experts to get started building Web services today Even if you are new to the Java programming language or have never built a J2EE application before I think you'll be surprised how easy it is to get started with Workshop Working inside the WebLogic Workshop environment you can focus on the procedural business code that is important to getting your applications built and leave all of the details of Web service and J2EE plumbing to the application framework BEA WebLogic Workshop Kick Start will give you an introduction to Web services in general and teach you the few Java and J2EE concepts you'll need to know along the way Rich with examples this book illustrates the power of Web services and will help you realize the value they can bring to your company Carl Sjogreen Product Manager WebLogic Workshop BEA Systems Inc Using Java Alexander Newman,1996 Assuming that the reader has a basic understanding of C this book describes the importance and origins of the World Wide Web as well as the existing browsers available for the Web today Minimal object oriented concepts are reviewed to provide a bridge into the rich development environment of Java for HotJava The CD contains all the source code for Java applets and applications plus HTML samples Communications Networking **USING JAVA 2 ENTERPRISE EDITION(SPECIAL EDITION)(CD-ROM 1** **MARK WUTKA,2001-10-30** *Using HTML 4, XML, and Java 1.2* Eric Ladd,Jim O'Donnell,1999 Companion CD ROM includes source code from the book organized by chapter virtual reference library of books on related topics Que's internet knowledgebase third party software graphics collection documentation *Special Edition Using Pocket PC 2002* Michael Morrison,2002 Special Edition Using Pocket PC's focuses on getting things done with Pocket PC's in a wireless networked environment Coverage includes security synchronization productivity using

Pocket Word and Pocket Excel multimedia and graphics and receiving e mail through Pocket Outlook The Pocket PC platform represents a new generation of hand held computing devices While the first release of the Pocket PC operating system set the stage for widespread adoption the newly released Pocket PC 2002 has finally given the platform enough credibility to assert itself as the future of hand held computing [Using Java 1.2](#) Joe Weber,1998 A programmer s tutorial reference on Java 1.2 that contains detailed descriptions of Sun s Java 1.2 standards APIs class libraries and programming tools The book contains over 20 000 lines of documented Java code that show programmers the details of building sophisticated Java applications Contains all the tools necessary to get started a CD of JavaScript Code Java Applets style sheets and templates

**USING JAVA SERVER PAGES AND SERVLETS(SPECIAL EDITION)** WUTKA,2001-03-29 **Using Enterprise JavaBeans 2.0** Chuck Cavaness,Brian Keeton,2002 Special Edition Using EJB 2.0 starts with a description of how EJB fits into the big picture of J2EE development then covers such topics as Locating EJB s using JNDI Managing data with EJB Query Language Building JMS applications using the new Message driven Bean Planning EJB applications using design patterns Later chapters describe advanced development topics including interoperability horizontal services and clustering Throughout the book the authors construct a component based auction web site using the J2EE architecture as a practical example **Using Netscape 3** Mark Robbin Brown,1996 This thorough tutorial reference explains how to use and customize the Web browser Netscape for any intended use The last half of the book covers the creation of world class home pages using all of Netscape s new tools including Macromedia Shockwave LiveWire and more The CD contains source code and examples given in the book **Web Programming Desktop Reference 6-in-1** ,1996 No matter what language they are using there is one book that all programmers own a comprehensive language and command reference This book covers five languages and provides readers with each language broken down into two distinct areas the ideal book for all Web programmers
