*Advances in Cryptology--CRYPTO '92* Ernest F. Brickell, 1993

Crypto 92 took place on August 16-20, 1992. It was the twelfth in the series of annual cryptology conferences held on the beautiful campus of the University of California Santa Barbara. Once again it was sponsored by the International Association for Cryptologic Research in cooperation with the IEEE Computer Society Technical Committee on Security and Privacy. The conference ran smoothly due to the diligent efforts of the general chair Spyros Magliveras of the University of Nebraska. One of the measures of the success of this series of conferences is represented by the ever increasing number of papers submitted. This year there were 135 submissions to the conference which represents a new record. Following the practice of recent program committees the papers received anonymous review. The program committee accepted 38 papers for presentation. In addition there were two invited presentations one by Miles Smid on the Digital Signature Standard and one by Mike Fellows on presenting the concepts of cryptology to elementary age students. These proceedings contain these 40 papers plus 3 papers that were presented at the Rump Session. I would like to thank all of the authors of the submitted papers and all of the speakers who presented papers. I would like to express my sincere appreciation to the work of the program committee Ivan Damgard Aarhus University Denmark Odd Goldreich Technion Israel Burt Kaliski RSA Data Security USA Joe Kilian NEC USA
