Gender in History Merry E. Wiesner-Hanks, 2011-06-24 GENDER IN HISTORY Praise for the first edition Wiesner Hanks accomplishes a near impossible feat a review of what is known about the construction of gender and the character of women s lives in all known cultures over the course of human history Theoretically sophisticated and doing justice to the historical and cross cultural record yet assimilable by students Choice Gender in History brilliantly explores the influence of gender constructs in political social economic and cultural affairs The remarkable cultural geographical and chronological range of Wiesner Hanks research is matched only by the sophistication nuance and clarity of her analysis This book offers a rare and valuable global perspective on gender roles in human history Jerry H Bentley University of Hawaii Over the past two decades considerations of gender have revolutionized the study of history Yet most books on the subject remain narrowly focused on a specific time period or particular region of the world Gender in History Global Perspectives Second Edition continues to redress this inequity by providing a concise overview of the construction of gender in many world cultures over a period stretching from the Paleolithic era to modern times Thoroughly updated to reflect current developments in the field the new edition features entirely new sections which address primates slavery colonialism masculinity transgender issues and other relevant topics As in the well received first edition material is presented thematically to reveal the connections between gender and structures such as the family economy law religion sexuality and the state Wiesner Hanks also investigates precisely what it meant to be a man or woman throughout history how these roles were shaped by various institutions and how they in turn were influenced by gender The author presents material within each chapter chronologically to highlight the ways in which gender structures have varied over time The new edition of Gender in History Global Perspectives offers rich insights into all that is currently known about gender roles throughout world history A companion website is available at www.wiley.com/go/wiesnerhanks

Gender Differences and the Making of Liturgical History Teresa Berger, 2020-03-26 Mapping uncharted

territory in the study of liturgy's past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy's past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including inter-sexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy's past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life *African Gender Studies* Oyeronke Oyewumi,2016-09-27 This is the first comprehensive reader that brings African experiences to bear on the ongoing global discussions of women gender and society Bringing together the essential writing on this topic from the last 25 years these essays discuss gender in Africa from a multi-disciplinary perspective *The Oxford History of Historical Writing* Axel Schneider,Daniel Woolf,2011-05-05 The fifth volume of The Oxford History of Historical Writing offers essays by leading scholars on the writing of history globally since 1945 Divided into two parts part one selects and surveys theoretical and interdisciplinary approaches to history and part two examines select national and regional historiographies throughout the world It aims at once to provide an authoritative survey of the field and to provoke cross-cultural comparisons This is chronologically the last of five volumes in a series that explores representations of the past across the globe from the beginning of writing to the present day *A History of Scottish Women's Writing* Douglas Gifford,Dorothy McMillan,1997 This is the first comprehensive critical analysis of Scottish women's writing from its recoverable beginnings to the present day Essays cover individual writers such as Margaret Oliphant Nan Shepherd Muriel Spark and Liz Lochhead as well as groups of writers or kinds of writing such as women poets and dramatists or Gaelic writing and the legacy of the Kailyard In addition to poetry drama and fiction a varied body of non-fiction writing is also covered including diaries memoirs biography and autobiography didactic and polemic writing and popular and periodical writing for and by women *Premodern History and Art through the Prism of Gender in East-Central Europe* Daniela Rywíková,Michaela Antonín Malaníková,2021-12-15 Premodern History and Art through the Prism of Gender in East-Central Europe is a representative collection of current Czech research in premodern history and art history using gender as a tool of analysis The common denominators of the texts collected in this volume are the art history of the premodern period gender perspectives and to a certain degree the Czech milieu The book is divided into four parts based on area of interest time frame and research perspective The first part sheds light on the state of research in the field of women's history along with the implementation of the concept of gender and highlights a certain paradigmatic conservatism of Czech art historiography The second gathers contributions that analyze visual sources of Czech origin The third includes texts that analyze gender issues on the level of literary

representation The final part presents two case studies that involve analysis of the premodern West European source base Rywikov and Malan kov present this volume as an innovative way to introduce this specific segment of Central European art history to a broader audience in global academia

Roach Pierson, Jane Rendall, 1991-01-01 *Gender and the Writing of Yemeni Women Writers* Antelak Al-Mutawakel, 2005
 Explores the writing of Yemeni women *Gender, Taste, and Material Culture in Britain and North America, 1700-1830*
 John Styles, Amanda Vickery, 2006 Between 1700 and 1830 men and women in the English speaking territories framing the
 Atlantic gained unprecedented access to material things The British Atlantic was an empire of goods held together not just by
 political authority and a common language but by a shared material culture nourished by constant flows of commodities Diets
 expanded to include exotic luxuries such as tea and sugar the fruits of mercantile and colonial expansion Homes were
 furnished with novel goods like clocks and earthenware teapots the products of British industrial ingenuity This
 groundbreaking book compares these developments in Britain and North America bringing together a multi disciplinary
 group of scholars to consider basic questions about women men and objects in these regions In asking who did the shopping
 how things were used and why they became the subject of political dispute the essays show the profound significance of
 everyday objects in the eighteenth century Atlantic world *Journal of Women's History*, 2004 **Gender and Power in
 Irish History** Maryann Gialanella Valiulis, 2009 This collection of articles poses the question What can gender history add to
 the traditional narrative of Irish history How can it help us to understand the ways in which power operated in and flowed
 through Irish society It is premised on the assumption that men and women are actors in the creation of their society
 influenced by the ideology of the period but also challenging and resisting the assumptions and beliefs of their era The
 articles included in this collection are far ranging and thematically diverse united by the common theme of gender While
 women play a dominant role in its pages it makes visible the power and presence of men Sometimes implicit sometimes
 explicit the history written on these pages is a history of the ways in which women and men constructed negotiated and made
 visible the roles ideas and representations that governed their particular society In so doing it provides an alternative
 reading to the traditional narrative of Irish history This book focuses mainly on the modern period and includes two articles
 from outside of Ireland which provides a comparative focus It also includes a theoretical introductory section on the nature of
 gender history from three leading Irish historians **Gender, Society, and Print Culture in Late Stuart England** Helen
 Berry, 2003 Did the problems of people living in Stuart England differ so significantly from those expressed in modern agony
