Writing in the Liberal Arts Tradition Kinneavy, 1990-01-01 **Writing in the Liberal Arts Tradition** James L. Kinneavy, William J. McCleary, Neil Nakadate, 1990 An adaptation of Kinneavy's U of Texas theory of the aims of discourse this introductory text takes students from a basic understanding of why people write to the actual planning execution and evaluation of their own writing Student and professional readings illustrate the principles discussed **Writing in the Liberal Arts Tradition** James L. Kinneavy, William J. McCleary, Neil Nakadate, 1985 **The Liberal Arts Tradition** Bruce A. Kimball, 2010-05-13 Ranging from Plato in antiquity to Martha Nussbaum in the present era the authors of the seventy readings included in *The Liberal Arts Tradition* present significant and exemplary views addressing liberal arts education over the course of its history particularly in the United States Most of the documents are newly translated or no longer available in print Arranged chronologically each selection is accompanied by an informative introduction and extensive explanatory notes discussing its place within the liberal arts tradition Based upon the author's twenty five years of experience leading seminars concerning the history of liberal education this collection presents a uniquely comprehensive and salient set of documents while incorporating the neglected portrayal and discussion of women within the history of the liberal arts *Letter-writing Manuals and Instruction from Antiquity to the Present* Carol Poster, Linda C. Mitchell, 2007 Once nearly as ubiquitous as dictionaries and cookbooks are today letter writing manuals and their predecessors served to instruct individuals not only on the art of letter composition but also in effect on personal conduct Poster and Mitchell contend that the study of letter writing theory which bridges rhetorical theory and grammatical studies represents an emerging discipline in need of definition In this volume they gather the contributions of eleven experts to sketch the contours of epistolary theory and collect the historic and bibliographic materials from Isocrates to email that form the basis for its study Landmark Essays on Writing Across the Curriculum Charles Bazerman, David Russell, 2020-11-25 Rhetoric as a general teaching while preaching locality of action and guidelines for handling that locality has tended from the beginning to serve as a universality It has offered a generalized techne with only limited categories appropriate for all discursive situations at least for those that were not excluded from the realm of rhetoric Nonetheless from its beginnings rhetoric limited its interests to certain activity fields such as law government religion and most important the educators of leaders in these activity fields This collection presents landmarks showing where the Writing Across the Curriculum WAC and Writing in the Disciplines WID movements have gone They have opened up a number of prospects that were impossible to see when rhetoric and composition confined their gaze to relatively few discursive activities This suggests that the rhetorical landscape is becoming more complex and interesting as well as more responsive to life in the complex differentiated societies that have emerged in the last few centuries This volume will reveal to scholars and researchers a range of possibilities for the study of disciplinary discourse and its teaching and suggest to them new prospects for the future and for the better **Handbook of**
