Using US and UK practice and procedure, Part I tracks the development of a serious allegation, whether originating inside or outside a company, looking at the key risks that arise and the challenges it poses along with the opportunities for its resolution. It offers expert insight into fact gathering, including document preservation and collection, witness interviews, structuring the investigation, the complexities of cross-border privilege issues, and strategising effectively to resolve cross-border probes and manage corporate reputation. Part II features detailed, comparable surveys of the relevant law and practice in jurisdictions that build on many of the vital issues pinpointed in Part I.
