Wisdom Of A Religious Commitment:

The Wisdom of Religious Commitment Terrence W. Tilley, 1995-04-05 By exploring a practical rather than propositional understanding of religious belief this book provides a new construct through which to view philosophy of religion Terrence W Tilley shifts the focus of debate from the justification of rational belief to the exercise of wisdom in making or maintaining a commitment to religious practices It is through practices Tilley concludes that religious belief is formed After analyzing the strengths and limitations of the modern approaches Tilley applies the concept of wisdom to the process of making a religious commitment Wisdom as explored by Aristotle St Thomas Aquinas and John Henry Newman may be thought of as the bridge between intellectual and moral virtues Roughly it can be described as the ability to put intellect into action in a context Because wisdom is a virtue requiring concrete display the book discusses the wisdom of commitment to specific religious practices of a range of traditions These examples demonstrate the issues and complexities involved in the wisdom of making a religious commitment This important challenge to contemporary philosophy of religion will be of special interest to students and teachers of theology and philosophy of religion Disagreement, Deference, and Religious Commitment John Pittard, 2020 Every known religious or explicitly irreligious outlook is contested by large contingents of informed and reasonable people Many philosophers have argued that reflection on this fact should lead us to abandon confident religious or irreligious belief and to embrace religious skepticism John Pittard critically assesses the case for such disagreement motivated religious skepticism While the book focuses on religious disagreement it makes a number of significant contributions to the more general discussion of the rational significance of disagreement as well *Rationality and Religious Commitment* Robert Audi, 2011-09-22 Rationality and Religious Commitment shows how religious commitment can be rational and describes the place of faith in the postmodern world It portrays religious commitment as far more than accepting doctrines it is viewed as a kind of life not just as an embrace of tenets Faith is conceived as a unique attitude It is irreducible to belief but closely connected with both belief and conduct and intimately related to life's moral political and aesthetic dimensions Part One presents an account of rationality as a status attainable by mature religious people even those with a strongly scientific habit of mind Part Two describes what it means to have faith how faith is connected with attitudes emotions and conduct and how religious experience may support it Part Three turns to religious commitment and moral obligation and to the relation between religion and politics It shows how ethics and religion can be mutually supportive even though ethics provides standards of conduct independently of theology It also depicts the integrated life possible for the religiously committed a life with rewarding interactions between faith and reason religion and science and the aesthetic and the spiritual The book concludes with two major accounts One explains how moral wrongs and natural disasters are possible under God conceived as having the knowledge power and goodness that make such evils so difficult to understand The other account explores the nature of persons human and divine and yields a conception that can sustain a rational theistic

worldview even in the contemporary scientific age Seventeenth-century British Autobiography: the Impact of Religious Commitment Ivan Dean Ebner,1965 *Strategies for Sustaining Religious Commitment* Theodore Weinberger,1991 This text explores how it is that the traditional Jewish way of life is intelligible deep persuasive and worth sustaining It draws upon the work of Mordecai Kaplan in articulating the strategy of religion as an anthropological necessity and upon Abraham Herschel for the strategy the religious life as artful experience It links the art of the religious life with the art of depicting the religious life *Religious Rhetoric and American Politics* Christopher B. Chapp,2012-11-15 From Reagan s regular invocation of America as a city on a hill to Obama s use of spiritual language in describing social policy religious rhetoric is a regular part of how candidates communicate with voters Although the Constitution explicitly forbids a religious test as a qualification to public office many citizens base their decisions about candidates on their expressed religious beliefs and values In *Religious Rhetoric and American Politics* Christopher B Chapp shows that Americans often make political choices because they identify with a civil religion not because they think of themselves as cultural warriors Chapp examines the role of religious political rhetoric in American elections by analyzing both how political elites use religious language and how voters respond to different expressions of religion in the public sphere Chapp analyzes the content and context of political speeches and draws on survey data historical evidence and controlled experiments to evaluate how citizens respond to religious stumping Effective religious rhetoric he finds is characterized by two factors emotive cues and invocations of collective identity and these factors regularly shape the outcomes of American presidential elections and the dynamics of political representation While we tend to think that certain issues e g abortion are invoked to appeal to specific religious constituencies who vote solely on such issues Chapp shows that religious rhetoric is often more encompassing and less issue specific He concludes that voter identification with an American civic religion remains a driving force in American elections despite its potentially divisive undercurrents The Cumulative Book Index ,1996 A world list of books in the English language Religious Commitment in Psychiatrically Ill Older Adults Kurt Gordon Brenner,1999 Religion assumes a central role in the lives of the majority of older adults The present study examined the role of religiosity on clinical outcome in elderly patients hospitalized for psychiatric care Two hypotheses were investigated a hospitalized elderly psychiatric patients would demonstrate a high degree of religiosity and b higher levels of religious commitment would determine shorter lengths of stay as well as greater improvements in psychiatric symptoms depression and cognitive functioning compared to lower levels of religious commitment Results revealed that two thirds of patients considered themselves at least fairly religious and 80% derived at least some strength and comfort from religion As expected the majority of patients 72% were infrequent religious service attenders Further religious commitment exerted beneficial effects on treatment outcome including shorter lengths of hospital stays due to less severe psychiatric symptoms and depression No differences were found in the magnitude of symptom change over the course of hospitalization among low medium and high religiosity groups Finally both public and
