Partners in Parenting , 1997

Parenting for a Happier Home Stuart Passmore, 2016-03-21 Being a parent can be tough and there are times when you just don t have all the answers For parents who find themselves faced with a seemingly endless spiral of conflict poor behaviour and ineffective discipline this is the evidence based parenting program they ve been waiting for Divided into 12 sessions it first focuses on developing a strong relationship between parent and child Once a firm foundation of parenting strategies has been developed the program then moves onto effective discipline The discipline program is designed so that it is self sustaining and allows the parent to step back from what is often an emotionally charged situation and instead use predetermined consequences It also emphasises teaching children ownership of their behaviour The beauty of this program is that the principles can be used in each of the child s environments at home at school with grandparents etc while it has also been designed so that any parent can use it as well as those with children who have been diagnosed with behavioural disorders such as ADHD Oppositional Defiance Disorder or explosive and non compliant behaviour It s a commonsense practical guide to getting your kids back on track and creating a happier home

A Parenting Manual Doc Lew Childre, 1995 A HeartMath System Title Shows the link between love and the development of intelligence Explains the stages of perceptual and emotional growth and gives practical techniques for increasing emotional balance and quality communication Supports parents in finding ways to enhance family life even with busy schedules and limited time

Handbook of Family Development and Intervention William C. Nichols, 2000-02-25 Like all complex living systems a family during its life course proceeds through predictable stages of development Yet every family is different its uniqueness defined and continually redefined by an open ended array of structural biological and sociocultural

variables And as with all living things a family s continued well being depends upon its ability to adapt to changes arising from both within the family system and without First postulated in the 1940s these basic ideas constitute the conceptual core of modern family development theory From them has blossomed an impressive body of knowledge about family health and illness without which much of the progress occurring in family therapy over the past half century would not have been possible This book does much to promote continued progress in the practical application of family development theory by affording family therapists an unparalleled opportunity to acquaint themselves with the most important trends in family development theory to emerge over the past decade In it you will find contributions from leading theorists researchers and clinicians arranged so as to provide a systematic treatment of the latest thinking on family development seen from both the systemic viewpoint and that of individual members of the system Comprehensive in scope this book explores the patterns processes and dynamics inherent in traditional families as well as in important structural variants such as single parent and gay and lesbian families and families with special needs and problems including divorce physical abuse and disabilities Since progress in the social sciences is as much about formulating viable new ways of seeing as it is about determining quantifiable facts the editors offer equal time to an array of influential and sometimes radically conflicting schools of thought including sociobiology social psychology constructionism multiculturalism postmodernism and feminism Mainstream family therapists will find much in this handbook that they will consider controversial In some cases readers may even be outraged by the views expressed Yet thanks to the high caliber of scholarship intellect and professionalism evidenced throughout none of the ideas advanced in Handbook of Family Development and Intervention can be easily dismissed and all have something of value to offer the thoughtful dedicated family therapist Handbook of Family Development and Intervention is a valuable professional resource for all couples and family therapists It is also must reading for graduate students in family psychology family therapy social work and counseling In this magnificent volume the editors make a major contribution that integrates individual and family development concepts and therapeutic applications by bringing together scholarly yet fresh contributions The inclusion of various family forms and of families with special needs makes this volume especially relevant to the treatment of contemporary families as we enter the new millennium This superb Handbook should be mandatory reading and an excellent reference for teachers researchers and therapists at all levels of development Celia J Falicov PhD President 1999 2001 American Family Therapy Academy *A Practical Handbook to the Principal Schools of England, Based for the Most Part on the Statutes, Schemes, and Regulations Made Under the Public Schools' Acts by the Public Schools Commissioners; Under Various Schemes of the Endowed Schools Commissioners; and Also Upon Information Furnished by the Head Masters* Charles Eyre Pascoe,1877 *Be a Great Step-Parent: A Teach Yourself Guide* Suzie Hayman,2011-01-11 More than 60 million Teach Yourself products sold worldwide Make the most out of your blended family Written by the United Kingdom s number one parenting counselor Be a Great Step Parent is a practical guide to coping with

the many issues you face as part of a blended family and to deriving a positive relationship with new family members It is full of straightforward and easy to follow advice that anyone can act on with plenty of emotional support in times of need With help for children of all ages moms and dads it takes a step by step approach to the subject covering everything from the earliest days of a new relationship to the issues raised by a new baby with practical information on finances and schools and suggestions for stress free holidays Inside you ll find One five and ten minute introductions to key principles to get you started Lots of instant help with common problems and quick tips for success based on the author s many years of experience A practical rather than emotional approach to step parenting so it is easy to use and accessible Topics include Getting together Early days and introductions Moving in and living together Practical issues Coming together From partner to stepparent Emotions Chores rules traditions and discipline Working together Sharing children with another family You can t tell me what to do you re not my Mom Dad Different parenting styles Schools Fighting the myths Financial issues finances and child support names and responsibilities Grandparents and other family members Communication and negotiation Moving on New babies for both parents Building cooperation and avoiding conflict Finances Legal issues Names and identity Looking after yourselves Light on Dark Paths: a Handbook for the Parents of Blind Children ... R. Meldrum,1883 *The Guilt-Free Guide to Your New Life As a Mom* Sheryl Gurrentz,Sherryl Gurrentz,2000 This accessible and honest guide addresses the physical and emotional needs of babies and mothers alike providing practical help for relieving anxiety regaining balance between work and home and adjusting to physical changes Discussed are many aspects of being a new mother that others hesitate to talk about such as what to do if boredom sets in how to resume a sex life comfortably and how to deal with the baby s grandparents *A Guide and Handbook for Parents of Mentally Retarded Children* Olga F.
