*Excavations at the Early Bronze IV Sites of Jebel Qa'aqir and Be'er Resisim* William G. Dever, 2018-07-17 This volume is the final report of excavations carried out in the Hebron hills and the Negev desert in 1967-1980 on behalf of Hebrew Union College in Jerusalem and the University of Arizona. They were pioneering multidisciplinary projects that helped to illuminate what was then a poorly known Dark Age in the cultural history of ancient Palestine: a nonurban interlude of pastoral nomadic movements over several centuries (ca. 2400-2000 B.C.E.) between the great urban civilizations of the early Bronze Ages. Eighteen appendixes by specialists in many disciplines analyze all aspects of material culture and human and animal remains. A history of previous scholarship and a synthesis of the EB IV period in both Israel and Jordan conclude the volume, which will be a landmark study for many years.

*Water and Peace in the Middle East* J. Isaac, H. Shuval, 1994-04-05 The volume serves as an important mile stone in the process called second track dialogue and cooperation between Israeli and Palestinian academics on crucial shared problems, the resolution of which is vital to the peace process. The book contains forty-one original papers dealing with almost all aspects of the Middle Eastern water problems and should serve as a useful reference to students, scholars, and policy makers all over the world interested in understanding the complexities of the Middle Eastern water conflicts.
