The Elixir:

Franciscans and the Elixir of Life Zachary A. Matus,2017-04-27 One of the major ambitions of medieval alchemists was to discover the elixir of life a sovereign remedy capable not only of healing the body but of transforming it Given the widespread belief that care for the body came at the cost of care for the soul it might seem surprising that any Franciscan would pursue the elixir but those who did were among its most outspoken and optimistic advocates They believed they could distill a substance that would purify transmute and ennoble the human body as well as the soul In an age when Christians across Europe were seeking material evidence for their faith and corporeal means of practicing their devotion alchemy and the elixir in particular offered a way to bridge the terrestrial and the celestial Framed as a history around science Franciscans and the Elixir of Life focuses on alchemy as a material practice and investigates the Franciscan discourses and traditions that shaped the pursuit of the elixir providing a rich examination of alchemy and religiosity Zachary A Matus makes new connections between alchemy ritual life apocalypticism and the particular commitment of the Franciscan Order to the natural world shedding new light on the question of why so many people claimed to have made seen or used alchemical compounds that could never have existed The Elixir Robert Nathan,1971 **The Standard formulary** Albert Ethelbert Ebert,1896 **The National Dispensatory** Alfred Stillé,John Michael Maisch,1884 Pharmaceutische Rundschau ... ,1886 **Report of the ...
