Interventions for Autism Spectrum Disorders Sam Goldstein, Jack A. Naglieri, 2013-02-03. Children are being diagnosed with autism spectrum disorders at a staggering rate, as many as one in 110, according to some studies. To this sobering statistic, add the familiar figures of the toddler disengaged from his peers, the middle schooler shunned in the lunchroom, and the adult struggling with social cues on the job. Professionals are faced with a mounting challenge to assist and support young people with these disorders to ensure their successful transition to adolescence and adulthood. The first volume dedicated solely to its topic, *Interventions for Autism Spectrum Disorders*, provides a comprehensive overview of programs currently in use. Contributors explore programs focusing on long-term outcomes, home and classroom-based strategies, resilience training for parents, and pharmacological management of symptoms.
