The Daily Telegraph Easy Guide to Acol Bridge Patrick Jourdain, 2005-04-19 Acol bidding is the most popular system in the UK and is used by the majority of players throughout the country Because it uses a weak no trump opening and a minimum of conventions it s a great way for beginners to learn how to bid with confidence *Treacle Boy's Guide to the Game of Bridge* Andrew Mountford, 2021-03-26 A rollicking roller coaster of a ride through the world of rubber bridge From opening bids and responses through the complexities of Jacoby transfers and the Blackwood convention and why you should lead the fourth highest card of a suit this book has it all In fact its got it in spades So who is this book for Well everyone A tall order maybe but we think we ve managed it If you re a complete newcomer to the world of bridge then this book is definitely for you Want to know what all the fuss is about but don t understand why a game takes so long and don t know the rules or how to begin a game or keep it going Then this book explains all that stuff with lots of examples and tips to get you started Not a novice but still consider yourself a beginner Want to improve your bidding technique and learn a few playing tricks Then this book is also for you It has a host of accessible guidelines that should help sharpen up your bidding and some neat pointers as to how you can make more of the hands you are dealt Or perhaps you ve been playing for a while and want to improve you ve always wondered what Jacoby transfers and cue bids were all about and why you should lead with the fourth highest card in a suit Then there s something here for you too You ll find some useful bidding conventions and playing guidelines explained through clear examples and we hope lucid explanation Even if you ve been playing for years and are well on your way to transitioning from an intermediate to an advanced player this book might still be for you It contains anecdotes and caricatures you might find familiar and maybe even amusing and if you find something that from your seasoned perspective you take issue with well good We d like to hear from you particularly if you include details we can steal without citing you as a contributor which can go towards adding to and hopefully improving future editions of this book
