## **Understanding And Trading Futures:**

*Understanding Investments* Nikiforos T. Laopodis, Nikiforos Laopodis, 2012 The author's main goal in writing *Understanding Investments* is to present the classic theories and strategies in the field of finance in a new intuitive and practical way This text offers context and grounding information to students truly looking as the title indicates to understand investments This textbook brings a number of innovative features to the field 1 Presentation of material from the economics point of view stressing the interpretation of concepts rather than their mere memorization and mechanical application 2 Shorter more streamlined chapters so instructors and students won't be distracted by superfluous detail and can instead focus on the most relevant issues 3 Fewer chapters than in current textbooks so instructors can comfortably cover all material within a semester 4 Boxes with International Focus vignettes discussions Applying Economic Analysis to relevant topics and featured Lessons from our Times allowing students to gain a deeper understanding of the material and its relevant context and applications 5 Sections in each chapter discussing different investment strategies and their pros and cons 6 Questions that solicit students critical thinking skills and problems that require their quantitative expertise to address real life problems rather than rote mechanical questions that merely require regurgitation
