Commission to Locate the Site of the Frontier Forts of Pennsylvania, 1896 **Beyond the Mountains** Drew A. Swanson, 2018-11-15 Beyond the Mountains explores the ways in which Appalachia often served as a laboratory for the exploration and practice of American conceptions of nature The region operated alternately as frontier wilderness rural hinterland region of subsistence agriculture bastion of yeoman farmers and place to experiment with modernization In these various takes on the southern mountains scattered across time and space both mountain residents and outsiders consistently believed that the region s environment made Appalachia distinctive for better or worse With chapters dedicated to microhistories focused on particular commodities Drew A Swanson builds upon recent Appalachian studies scholarship emphasizing the diversity of a region so long considered a homogenous backwater While Appalachia has a recognizable and real coherence rooted in folkways agriculture and politics among other things it is also a region of varied environments people and histories These discrete stories are however linked through the power of conceptualizing nature and work together to reveal the ways in which ideas and uses of nature often created a sense of identity in Appalachia Delving into the environmental history of the region reveals that Appalachian environments rather than separating the mountains from the broader world often served to connect the region to outside places **Songs and Gifts at the Frontier** Jose S. Buenconsejo, 2013-11-26 This book investigates the particular history and social experience by a marginalized society in Mindanao Island Philippines through an analysis of the speech song and dance in spirit possession ritual Using the concepts of exchange and reciprocity Buenconsejo connects the performativity of ritual song to the formation and maintenance of sociability personhood and subjectivity Also includes maps *Grass Beyond the Mountains* Richmond Pearson Hobson, 1952
