Antony ARMSTRONG-JONES,1987 **Snowdon** Antony Armstrong-Jones Earl of Snowdon,Chris Beetles Gallery,2006 For half a century Lord Snowdon has proven to be a photographic polymath documenter of the rich and poor theatre and film high society and social change A long standing contributor to Vogue Tatler The Times The Telegraph and virtually every other **American Photographer** ,1987 The Politics of Pictures John Hartley,2017-09-25 The Politics of Pictures is a history of looking from Aristotle to TV audiences from the invention of photography to the meaning of picnics from Leviathan to synchronised swimming Dr Johnson to the sexualization of war John Hartley s wide ranging and sometimes bizarre journey of discovery looks for the public in the realm of media where citizens are now literally represented on screen and page The book investigates popular media reality by showing how pictures and texts are powerful political forces in their own right using a variety of primary texts to explore the way publics have been created and exploring the political uses of media audiences The unconventional approach is designed to show how popular reality looks to itself and how its peculiar forms and connections actually challenge some venerable political and philosophical truths *Set Pieces* Daniel Meadows,1993 Film stills are everywhere outside cinemas on advertising hoardings in magazines Their purpose seems obvious enough to promote the film by showing you a scene from it But there is more to it than that Daniel Meadows has been stills photographer on British films and television series such as Inspector Morse Film on Four and work by Ken Russell This is an account of how he got into stills photography in which he explains why films need to have photographs specially taken The author describes his work on set reveals technical mysteries and explains the Five Picture theory of film making *The Photographic Journal* ,1990 Vols for 1853 include the transactions of the Royal Photographic Society of Great Britain

Ganteau,Susana Onega,2013-01-17 Drawing on a variety of theoretical approaches including trauma theory psychoanalysis genre theory narrative theory theories of temporality cultural theory and ethics this book breaks new ground in bringing together trauma and romance two categories whose collaboration has never been addressed in such a systematic and in depth way The volume shows how romance strategies have become an essential component of trauma fiction in general and traumatic realism in particular It brings to the fore the deconstructive powers of the darker type of romance and its adequacy to perform traumatic acting out and fragmentation It also zooms in on the variations on the ghost story as medium for the evocation of trans generational trauma as well as on the therapeutic drive of romance that favors a narrative presentation of the working through phase of trauma Chapters explore various acceptations and extensions of psychic trauma from the
