*The Poetry of Derek Mahon* Hugh Haughton, 2010-10-21 Derek Mahon is one of the leading poets of his time both in Ireland and beyond famously offering a perspective that is displaced from as much as grounded in his native country From prodigious beginnings to prolific maturity he has been through thick and thin through troubled times and other a writer profoundly committed to the art of poetry and the craft of making verse He has also been no less a committed reviser of his work believing the poem to be more than a record in verse but a work of art never finished This virtuoso study by Hugh Haughton provides the most comprehensive account imaginable of Mahon's oeuvre Haughton's brilliant writing always serves and illuminates the poetry yielding extraordinary insights on almost every page The poetry its revisions and reception are the subject here but so thorough is the approach that what is offered also amounts indirectly to an intellectual biography of the poet and with it an account of Northern Irish poetry vital to our understanding of the times

*Contemporary Irish Ecocentric Poetry and the Writing of Nature* Wit Pietrzak, 2025-10-02 Contemporary Irish Ecocentric Poetry and the Writing of Nature explores how poetic language can apprehend non anthropocentric points of view It builds on the recent developments in environmental humanities and seeks to show that four Irish poets Derek Mahon Paula Meehan Moya Cannon and Se n Lysaght offer means of diversifying our perception of nature and our place in it This diversification in turn is intended to help us change our idea of natural environment from seeing it as a passive space which we can either exploit or preserve to a view of nature as an interrelated network of agents in which humans are one actor among numerous others Utilising a broad theoretical and philosophical context to help frame the analyses of verse in up to date conceptual schemes this volume serves as a critical foundation for the future work and research in Irish ecocriticism and on ecopoetics in general making the monograph an ideal read for postgraduates scholars and researchers in these fields
