Western Alliance:

European Peace Movements and the Future of the Western Alliance Walter Laqueur, 2017-09-08 This extraordinary compendium concerns the future of the Western alliance and the development of the peace movements in Europe and in the United States The peace movement is an old phenomenon given new life by NATO decisions concerning nuclear deployment in Europe and the Soviet responses along the same lines After a long postwar marriage Europeans and Americans alike are reexamining the premises of the Western alliance The contributors provide a variety of scenarios extending from the maintenance of the status quo to the complete dismantling of the Western alliance or at least of its NATO component In a context of rapid change and new challenges to the democratic bloc the editors and authors argue for higher levels of economic integration and caution that competition might spill over into political collapse The work deals with thorny security issues in a frank and policy oriented way While each contributor expresses a unique standpoint a surprising consensus emerges The need for democratic nations to move toward a higher policy ground in order to preserve the fundamental alliance that led to the postwar consensus to begin with Some contributors feel this is still possible others that the time has passed and that national rather than regional interests will once more prevail The work contains an extraordinary array of talent from both the American and European perspectives Among the major contributors and their themes are Henry Kissinger on A Plan to Reshape NATO William G Hyland on The European Peace Movement and NATO Irving Kristol on What's Wrong with NATO Theodore Draper on The Western Misalliance Niels Haagerup on The Nordic Peace Movements Martin Ceadel on The British Nuclear Disarmers and Jeffrey Herf on The SPD and the Peace Movement in West Germany This is a well integrated text with no random essays Defence, Technology and the Western Alliance Institute for Strategic Studies (London, England), 1967 *Europe in the Western Alliance* Jonathan Alford, Kenneth Hunt, 2015-12-30 This analysis of the political and strategic dilemmas that Europeans now face makes a case for greater political and military cooperation and argues for the creation of a European defence identity that will not hinder improvements in East West relations nor loosen the ties with the US Weekly Compilation of Presidential Documents, 1975 **Victor Emmanuel** Edward Dicey, 1886 **The Academy and Literature**, 1891 Printers' and Stationers' Year Book & Diary, 1926 **The Statist**, 1892 **Munsell's Historical Series**, 1886 **A Manual of Church History** Arthur Charles Jennings, 1891 A Manual of Church History by Arthur Jennings Charles first published in 1891 is a rare manuscript the original residing in one of the great libraries of the world This book is a reproduction of that original which has been scanned and cleaned by state of the art publishing tools for better readability and enhanced appreciation Restoration Editors mission is to bring long out of print manuscripts back to life Some smudges annotations or unclear text may still exist due to permanent damage to the original work We believe the literary significance of the text justifies offering this reproduction allowing a new generation to appreciate it **The History of England from the Accession of James the Second** Thomas Babington Macaulay Baron
