The size of crypto investments in India stands at more than 10 billion and about 15 million Indians have invested in cryptocurrencies. Most crypto traders are in the age group of twenty-two to thirty years and hail from Tier 2, Tier 3, and Tier 4 towns. The volatility and easy money that crypto promises has turned it into a financial phenomenon. As the traders know, mining crypto coins is an arms race that rewards early adopters. And they are in a hurry. So where and when did the chase for fast money begin to take so many wrong turns? This book traces the murky underbelly of the crypto world and its mercurial spread across India from the interiors of Uttar Pradesh where crypto accounts are looted at gunpoint to quick black-to-white switches for money in Bihar to the lure of drugs and parties in Karnataka and social media influencers who choose to be paid in crypto to circumvent both taxes and accountability. Crimes range in both scale and concentration. In a chilling report, a Special Investigation Team reported that cryptocurrency is allegedly being used for transactions in narcotics, drugs, smuggling, investment of unaccounted money, and illegal betting. Its latest use is to procure arms and weapons, becoming an easy conduit to fund terror activities against the Indian state. And this is only the tip of the iceberg. With personal stories and first-person accounts, **Crypto Crimes** goes deep into the dark web to reveal the truth behind the crypto bubble that is red-hot, unregulated, and spells trouble. **Cryptocurrency** Stephen Satoshi, 2017-09-04. Discover how you can make money from cryptocurrency even if you're a complete novice. Between 2010 and 2017, the price of Bitcoin rose from 0.07 to over 4,000. An increase of 5,714.190%. That's the equivalent of buying 1 share of Apple stock today and that very same share being worth an astonishing 9.1 million in just 7 short years. But the Bitcoin ship has sailed. Right? Aren't the best days of cryptocurrency over? Think again. In fact, there is no better time than now to get involved in the cryptocurrency market. This year, those who bought Ethereum in January saw the price rise from 8.06 to a peak of 356, an increase of a whopping 4,316%. Or what about Litecoin, which rose 1,788% from 4.33 to 81.78 in 2017. In the same time frame, the S&P 500 rose a mere 10.25% and that was a good year for the market. Gold only rose 10.16% in the same time period. This may sound like hype, except these are real numbers. Real millionaires have been created in the past 5 years thanks to Bitcoin and other cryptocurrencies. And now you can invest and profit from these unbelievable wealth growers. This book will show you a step-by-step process how you can buy, sell, and profit from cryptocurrency even if you don't know the difference between a Bitcoin and a
