The Celtic Queen:

Boudica: the Life and Legacy of the Celtic Queen Who Rebelled Against the Romans in Britain Charles River Charles River Editors, 2019-04-07 Includes pictures Includes ancient accounts Includes online resources and a bibliography for further reading

The Romans thinking that it might be some help to the allies Britons whom they were forced to abandon constructed a strong stone wall from sea to sea in a straight line between the towns that had been there built for fear of the enemy where Severus also had formerly built a rampart Bede's description of Hadrian's Wall in the Middle Ages The famous conqueror from the European continent came ashore with thousands of men ready to set up a new kingdom in England The Britons had resisted the amphibious invasion from the moment his forces landed but he was able to push forward In a large winter battle the Britons large army attacked the invaders but was eventually routed and the conqueror was able to set up a new kingdom Over 1 100 years before William the Conqueror became the King of England after the Battle of Hastings Julius Caesar came saw and conquered part of Britannia setting up a Roman province with a puppet king in 54 BCE In the new province the Romans eventually constructed a military outpost overlooking a bridge across the River Thames The new outpost was named Londinium and it covered just over two dozen acres Londinium had become the largest city in Britannia shortly before being burned down in a native revolt led by an infamous Celtic Iceni queen named Boudica With a name meaning Victory Boudica was a charismatic woman who commanded nearly 100 000 Celts and led them on a campaign to expel the Roman overlords from Britain around the year 61 CE Often called the Celtic Queen she wore a warrior's necklace around her delicate neck and rode upon a sturdy steed According to the ancient historian Cassius Dio In stature she was very tall in appearance most terrifying in the glance of her eye most fierce and her voice was harsh It is said she had a piercing glare that could shrink her people's enemies which in this case were the Roman legionnaires under the vengeful general Suetonius Boudica was not only a woman of high intelligence but also a Druid priestess of great repute which caused the Romans a unique kind of concern The Celts have fascinated people for centuries and the biggest fascination of all has been over the Druids a religious class at the heart of Celtic society that wielded great power Naturally people have been interested in Druids for centuries mostly because they don't understand much about the Druids or their practices The word comes from the Romans who labeled them Druidae in reference to the white robed order of Celtic priests living in Gaul Britain and Ireland They were a well organized secretive group who kept no written records and performed their rituals allegedly including human sacrifice in oaken groves all of which interested and horrified Roman writers As Pliny wrote in the 1st century CE Barbarous rites were found in Gaul even within my own memory For it was then that the emperor Tiberius passed a decree through the senate outlawing their Druids and these types of diviners and physicians But why do I mention this about a practice which has crossed the sea and reached the ends of the earth For even today Britain performs rites with such ceremony that you would think they were the source for the extravagant Persians It is amazing how distant people are so

similar in such practices But at least we can be glad that the Romans have wiped out the murderous cult of the Druids who thought human sacrifice and ritual cannibalism were the greatest kind of piety While Boudica fought for freedom the Romans were willing to fight just as hard for the wealth of the Celtic resources including troves of gold silver and tin Boudica Charles River Editors,2019-04-07 Includes pictures Includes ancient accounts Includes online resources and a bibliography for further reading The Romans thinking that it might be some help to the allies Britons whom they were forced to abandon constructed a strong stone wall from sea to sea in a straight line between the towns that had been there built for fear of the enemy where Severus also had formerly built a rampart Bede s description of Hadrian s Wall in the Middle Ages The famous conqueror from the European continent came ashore with thousands of men ready to set up a new kingdom in England The Britons had resisted the amphibious invasion from the moment his forces landed but he was able to push forward In a large winter battle the Britons large army attacked the invaders but was eventually routed and the conqueror was able to set up a new kingdom Over 1 100 years before William the Conqueror became the King of England after the Battle of Hastings Julius Caesar came saw and conquered part of Britannia setting up a Roman province with a puppet king in 54 BCE In the new province the Romans eventually constructed a military outpost overlooking a bridge across the River Thames The new outpost was named Londinium and it covered just over two dozen acres Londinium had become the largest city in Britannia shortly before being burned down in a native revolt led by an infamous Celtic Iceni queen named Boudica With a name meaning Victory Boudica was a charismatic woman who commanded nearly 100 000 Celts and led them on a campaign to expel the Roman overlords from Britain around the year 61 CE Often called the Celtic Queen she wore a warrior s necklace around her delicate neck and rode upon a sturdy steed According to the ancient historian Cassius Dio In stature she was very tall in appearance most terrifying in the glance of her eye most fierce and her voice was harsh It is said she had a piercing glare that could shrink her people s enemies which in this case were the Roman legionnaires under the vengeful general Suetonius Boudica was not only a woman of high intelligence but also a Druid priestess of great repute which caused the Romans a unique kind of concern The Celts have fascinated people for centuries and the biggest fascination of all has been over the Druids a religious class at the heart of Celtic society that wielded great power Naturally people have been interested in Druids for centuries mostly because they don t understand much about the Druids or their practices The word comes from the Romans who labeled them Druidae in reference to the white robed order of Celtic priests living in Gaul Britain and Ireland They were a well organized secretive group who kept no written records and performed their rituals allegedly including human sacrifice in oaken groves all of which interested and horrified Roman writers As Pliny wrote in the 1st century CE Barbarous rites were found in Gaul even within my own memory For it was then that the emperor Tiberius passed a decree through the senate outlawing their Druids and these types of diviners and physicians But why do I mention this about a practice which has crossed the sea and reached the ends of the earth For even today Britain performs rites with such

McCoppin,2023-02-13 Drawing upon historical archaeological and mythical examples from around the world this book reveals how societal views of female empowerment and authority can be directly traced to the reverence once directed towards female warriors priestesses healers queens pharaohs and goddesses Communities which revered women as sacred idols of their belief systems were far more likely to place women in prominent positions of social or political influence since their members were quite used to envisioning power in the hands of a strong or divine woman The book also explores how goddesses were purposefully devalued during the rise of patriarchal civilizations thus restricting the social importance of earthly women and their accompanying rights One such instance can be found in Greek mythology s Gaia once revered as a dominant earth mother she was replaced by a division of less powerful figures with more socially acceptable feminine roles such as Aphrodite the goddess of love typically held up as an object of male lust Hera the goddess of marriage and childbirth often portrayed as obsessed with jealousy over the extramarital exploits of her husband and the mostly silent goddess of the

hearth Hestia The devaluing of once revered goddesses appeared in quite distinct ways across different cultures thus this book breaks down its chapters by global region including Europe the Middle East the Mediterranean India Asia Africa the Americas and Oceania
