Ainsworth Ph.D.,Brian M. Harward,2019-07-19 This three volume set explores the multiple roles that parties and interest

groups have played in American politics from the nation's beginnings to the present. This set serves as an essential resource for analyzing the emergence and impact of parties and interest groups in the American political system and for understanding the systematic and structural bases for interest group and party behavior. Volume One opens with an introduction by the editors that provides a general overview of the eras and identifies important themes and events, laying a foundation on which the subsequent essays and primary documents for each interest group or political party build. Narrative essays focus on how specific parties or interest groups have shaped or reflect a particular set of events or general themes in each of the eras in American political history. Topical entries reflect key themes developed throughout the volumes. Entries range from important founding groups and parties to contemporary political action committees and policy advocacy groups. The set also includes primary source documents, e.g., letters, platform documents, court decisions, flyers, etc., that reveal important dimensions of the corresponding group's political influence.

Congress and US China Policy, 1989-1999 Jian Yang, 2000. The purpose of this book is to analyse the influence of domestic politics on congressional intervention in US policy towards China with special reference to three factors which might loosely be termed structural factors: partisanship, constituency and committees. The analysis is conducted by examining two issues: China's most favoured nation (MFN) status and the Taiwan issue during the Republican George Bush administration (1989-1992) and most of the Democratic Bill Clinton administration (1993-1999). Contents: Preface, Abbreviations, Committee Assignments, Introduction, A Theoretical Framework, A History and Literature Review, Congress Charges MFN under Bush, Congress Retreats MFN under Clinton, Congress Surprised Taiwan Policy under Bush, Congress Triumphant Taiwan Policy under Clinton, Congressional Behaviour, Structural Explanations, The Role of Congress Beyond the Structural Explanations, Conclusion, Bibliography.

The China Threat Nancy Bernkopf Tucker, 2014-03-04. Nancy Bernkopf Tucker confronts the coldest period of the cold war, the moment in which personality, American political culture, public opinion and high politics came together to define the Eisenhower Administration's policy toward China. A sophisticated multidimensional account based on prodigious cutting edge research, this volume convincingly portrays Eisenhower's private belief that close relations between the United States and the People's Republic of China were inevitable and that careful consideration of the PRC should constitute a critical part of American diplomacy. Tucker provocatively argues that the Eisenhower Administration's hostile rhetoric and tough actions toward China obscure the president's actual views. Behind the scenes, Eisenhower and his Secretary of State John Foster Dulles pursued a more nuanced approach, one better suited to China's specific challenges and the stabilization of the global community. Tucker deftly explores the contradictions between Eisenhower and his advisors, public and private positions. Her most powerful chapter centers on Eisenhower's recognition

that rigid trade prohibitions would undermine the global postwar economic recovery and push China into a closer relationship with the Soviet Union Ultimately Tucker finds Eisenhower's strategic thinking on Europe and his fear of toxic anticommunist domestic politics constrained his leadership making a fundamental shift in U S policy toward China difficult if not impossible Consequently the president was unable to engage congress and the public effectively on China ultimately failing to realize his own high standards as a leader

A Conflict Perpetuated Noam Kochavi, 2002-01-30 The first comprehensive account of China policy during the Kennedy years this study profiles John F Kennedy as a man whose inner struggles and disparate characteristics made for an unpredictable foreign policy While he was often a hostage to the Cold War to constrictive perceptions of the domestic climate and to the image of a predatory China Kennedy recognized Washington's finite capacity to shape events on the China Mainland With the possible exception of a preventive strike against China's nuclear installations he was also reluctant to run the risk of a military confrontation with Beijing On the eve of his assassination Kennedy may have even contemplated a China policy departure during his second term A calm appraisal of China's capabilities and intentions constituted the distinguishing feature of revisionist thinking during the Kennedy years The disjointed revisionist effort settled in late 1963 on a pedagogic course which still implied a search for American primacy The revisionist approach did ultimately facilitate the transformation of bilateral relations in the early 1970s From a shorter range perspective however the Kennedy era only added fuel to the fire of Sino American confrontation The Limited Test Ban Treaty accentuated the sense of encirclement and vulnerability in Beijing's psyche and clouds gathered ominously over Vietnam Kennedy does bear some responsibility for the bilateral impasse as he personified a decisionmaker so obsessed with the objective of deterrence as to overlook the security dilemma nonetheless Mao's preference for a radical course independent of Kennedy's conduct contributed as well Neither side was yet ready for a breakthrough
