Green Matters ,2019-11-26 Green Matters offers a fascinating insight into the regenerative function of literature with regard to environmental concerns Based on recent developments in ecocriticism the book demonstrates how the aesthetic dimension of literary texts makes them a vital force in the struggle for sustainable futures Applying this understanding to individual works from a number of different thematic fields cultural contexts and literary genres Green Matters presents novel approaches to the manifold ways in which literature can make a difference While the first sections of the book highlight the transnational the focus on Canada in the last section allows a more specific exploration of how themes genres and literary forms develop their own manifestations within a national context Through its unifying ecocultural focus and its variegated approaches the volume is an essential contribution to contemporary environmental humanities

Climate Change Mike Hulme,2021-07-27 Written by a leading geographer of climate this book offers a unique guide to students and general readers alike for making sense of this profound far reaching and contested idea It presents climate change as an idea with a past a present and a future In ten carefully crafted chapters Climate Change offers a synoptic and inter disciplinary understanding of the idea of climate change from its

varied historical and cultural origins to its construction more recently through scientific endeavour to the multiple ways in which political social and cultural movements in today's world seek to make sense of and act upon it to the possible futures of climate however it may be governed and imagined The central claim of the book is that the full breadth and power of the idea of climate change can only be grasped from a vantage point that embraces the social sciences humanities and natural sciences This vantage point is what the book offers written from the perspective of a geographer whose career work on climate change has drawn across the full range of academic disciplines The book highlights the work of leading geographers in relation to climate change examples illustrations and case study boxes are drawn from different cultures around the world and questions are posed for use in class discussions The book is written as a student text suitable for disciplinary and inter disciplinary undergraduate and graduate courses that embrace climate change from within social science and humanities disciplines Science students studying climate change on inter disciplinary programmes will also benefit from reading it as too will the general reader looking for a fresh and distinctive account of climate change

Fire and Snow Marc DiPaolo, 2018-07-11 Fellow Inklings J R R Tolkien and C S Lewis may have belonged to different branches of Christianity but they both made use of a faith based environmentalist ethic to counter the mid twentieth century's triple threats of fascism utilitarianism and industrial capitalism In *Fire and Snow* Marc DiPaolo explores how the apocalyptic fantasy tropes and Christian environmental ethics of the Middle earth and Narnia sagas have been adapted by a variety of recent writers and filmmakers of climate fiction a growing literary and cinematic genre that grapples with the real world concerns of climate change endless wars and fascism as well as the role religion plays in easing or escalating these apocalyptic level crises Among the many other well known climate fiction narratives examined in these pages are *Game of Thrones* *The Hunger Games* *The Handmaid's Tale* *Mad Max* and *Doctor Who* Although the authors of these works stake out ideological territory that differs from Tolkien's and Lewis's DiPaolo argues that they nevertheless mirror their predecessors ecological concerns The Christians Jews atheists and agnostics who penned these works agree that we all need to put aside our cultural differences and transcend our personal socioeconomic circumstances to work together to save the environment Taken together these works of climate fiction model various ways in which a deep ecological solidarity might be achieved across a broad ideological and cultural spectrum This book is freely available in an open access edition thanks to Knowledge Unlatched an initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/7137>
