Worlds Fair:

Encyclopedia of World's Fairs and Expositions John E. Findling, Kimberly D. Pelle, 2015-10-12 This encyclopedia contains individual histories of each of the nearly 100 World's Fairs and expositions held in more than 20 countries since 1851. This is a thorough revision and updating of the book originally published as *A Historical Dictionary of World's Fairs and Expositions* in 1990. The new entries include essays on the world's fairs to be held in Zaragoza, Spain in 2008 and in Shanghai, China in 2010. Many of the original essays have been revised and expanded. Topics covered include goods, tourism, nationalistic competition, architecture, art, and culture, and exhibition fatigue. Each fair history has its own annotated bibliography which provides, when possible, the location of relevant primary sources and comments on the quality of secondary sources. Appendices cover the Bureau of International Expositions, fair statistics, fair officials, fairs that did not qualify for inclusion, and fairs that were planned but never held. The book includes a foreword and appendix by Vicente Gonzalez Loscertales, the secretary general of the Bureau of International Expositions.

World's Fairs Erik Mattie, 1998. As showcases of design, architecture, technology, industry, and politics, world's fairs have served as overviews of society's accomplishments as well as barometers of the optimism for the future. While many of the products and ideas promoted at past fairs never materialized, many became commonplace. Television, for example, was first shown at the 1939 New York fair. Similarly, while many buildings and landscapes built for fairs have become world-wide icons, the Eiffel Tower, the Crystal Palace, the Barcelona Pavilion, the Seattle Space Needle, the Buckminster Fuller Dome in Montreal, hundreds of splendid structures have been forgotten.

Meet Me at the Fair: A World's Fair Reader Celia Pearce, Bobby Schweizer, Laura Hollengreen, Rebecca Rouse, 2014. Together with the Olympics, world's fairs are one of the few regular international events of sufficient scale to showcase a spectrum of sights, wonders, learning opportunities, technological advances, and new or renewed urban districts, and to present them all to a mass audience. *Meet Me at the Fair: A World's Fair Reader* breaks new ground in scholarship on world's fairs by incorporating a number of short new texts that investigate world's fairs in their multiple aspects: political, urban, architectural, anthropological, sociological, technological, commercial, popular, and representational. Contributors come from eight different countries and represent affiliations in academia, museums, and libraries, professional and architectural firms, non-profit organizations, and government regulatory agencies. In taking the measure of both the material artifacts and the larger cultural production of world's fairs, the volume presents its own phantasmagoria of disciplinary perspectives: historical periods, geographical locales, media, and messages mirroring the microcosmic form of the world's fair itself.

New York World's Fair, 1939 United States. Congress. House. Committee on Foreign Affairs, 1937. *Considers 75 H. J. Res. 234, 75 H. J. Res. 304.*

A World's Fair for the Global Village Carl Malamud, 1997. Malamud offers a behind-the-scenes look at the Internet Exposition of 1996, a worldwide event which embraced the new technologies of the Internet and profiles the small group of people who made it happen. The book comes with an audio CD and a CD-ROM for Macintosh and Windows 95/800.
