The World Sensorium Oliver L. Reiser, 2013-10 This is a new release of the original 1946 edition **The World Sensorium** Oliver Leslie Reiser, 1946 **Cosmic Humanism and World Unity** Oliver L. Reiser, 2023-10-13 First published in 1975 Cosmic Humanism and World Unity presents a comprehensive overview of the world view a theory of knowledge a cosmology and a possible universal religion termed as cosmic humanism It aims to discover and formulate some of the main principles that may help mankind integrate the world ethically aesthetically and spiritually as science and technology have integrated the planet in its physical relationships It discusses themes like mental pattern for the planet language and world order grand strategy of evolution Helium Psychosphere cosmic humanism and the space age and existentialist cosmology and harmony This is an interesting read for scholars and researchers of philosophy [The Global Coup d'État](#) Jacob Nordangård, 2024-10-15 We are in the midst of a devastating takeover of our world The Global Coup d tat shows how why and what we can do to stop it The year 2020 will go down in history as the year when the global coup d tat was initiated In a historical context the COVID 19 crisis the murder of George Floyd by a police officer and subsequent riots mass protests against government lockdowns and the 2020 election appear rather as part of a well directed chess game with complete control of the whole planet as the final goal During the crescendo of this drama the powers behind the coup emerged quite openly offering a techno totalitarian and very far reaching solution to the world This solution which they call the Great Reset means that mankind must be fully integrated and merged with a worldwide technological system through the application of the technologies of the Fourth Industrial Revolution all for our own safety security and well being Most people probably associate the phrase coup d tat with a sudden violent takeover with tanks around government buildings takeover of media channels purges of dissidents arrests and so on But this is not always the case The usurpers can also seize power without violence in a completely legal and democratic way with the consent or even enthusiasm of the people as evidenced in 2020 There are many existential threats climate crisis refugee crises terrorism pandemics etc that can be used to establish a firmer and more centralized governance This can be a gradual process barely perceivable until it s almost a fait accompli In [The Global Coup d tat](#) author and researcher Jacob Nordang rd shares the history describes the process reveals the methods and identifies the agents of this worldwide takeover so that we can take action before it is too late **The Journal of Parapsychology** Joseph Banks Rhine, Charles Edward Stuart, William McDougall, 1946 [Theosophical Forum and the Theosophical Path and Lucifer](#) , 1946 **Dictionary Of Modern American Philosophers** John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short

biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought
