Worlds Of Difference:

Worlds of Difference, 1990 **A World of Difference**, 1991 *The Three Heavens* Josiah Crampton, 1876 *Hard Luck* Neil Levy, 2011-06-30

The concept of luck has played an important role in debates concerning free will and moral responsibility yet participants in these debates have relied upon an intuitive notion of what luck is Neil Levy develops an account of luck which is then applied to the free will debate He argues that the standard luck objection succeeds against common accounts of libertarian free will but that it is possible to amend libertarian accounts so that they are no more vulnerable to luck than is compatibilism But compatibilist accounts of luck are themselves vulnerable to a powerful luck objection historical compatibilisms cannot satisfactorily explain how agents can take responsibility for their constitutive luck non historical compatibilisms run into insurmountable difficulties with the epistemic condition on control over action Levy argues that because epistemic conditions on control are so demanding that they are rarely satisfied agents are not blameworthy for performing actions that they take to be best in a given situation It follows that if there are any actions for which agents are responsible they are akratic actions but even these are unacceptably subject to luck Levy goes on to discuss recent non historical compatibilisms and argues that they do not offer a viable alternative to control based compatibilisms He suggests that luck undermines our freedom and moral responsibility no matter whether determinism is true or not

Free Will and Moral Responsibility Justin Caouette, Ishtiyaque Haji, 2013-10-03

Determinism is roughly the thesis that facts about the past and the laws of nature entail all truths A venerable age old dilemma concerning responsibility distils to this if either determinism is true or it is not true we lack responsibility grounding control Either determinism is true or it is not true So we lack responsibility grounding control Deprived of such control no one is ever morally responsible for anything A number of the freshly minted essays in this collection address aspects of this dilemma Responding to the horn that determinism undermines the freedom that responsibility or moral obligation requires the freedom to do otherwise some papers in this collection debate the merits of Frankfurt style examples that purport to show that one can be responsible despite lacking alternatives Responding to the horn that indeterminism implies luck or randomness other papers discuss the strengths or shortcomings of libertarian free will or control Also included in this collection are essays on the freedom requirements of moral obligation forgiveness and free will a desert free conception of free will and vicarious legal and moral responsibility The authors of the essays in this volume are philosophers who have made significant contributions to debates in free will moral responsibility moral obligation the reactive attitudes philosophy of action and philosophical psychology and include John Martin Fischer Robert Kane Michael McKenna Alfred Mele and Derk Pereboom

Agency, Freedom, and Moral Responsibility Andrei Buckareff, Carlos Moya, Sergi Rosell, 2016-04-29

In recent years there has been a resurgence of interest in problems related to human agency and responsibility by philosophers and researchers in cognate disciplines The present volume brings together original contributions by leading specialists working in this vital field of philosophical inquiry

The contents represent the state of the art of philosophical research on intentional agency free will and moral responsibility
The volume begins with chapters on the metaphysics of agency and moves to chapters examining various problems of luck
The final two sections have a normative focus with the first of the two containing chapters examining issues related to responsible agency and blame and the chapters in the final section examine responsibility and relationships This book will be of interest to researchers and students interested in both metaphysical and normative issues related to human agency

Between Worlds Ashok K. Gangadean,1998 The essays included in this book break new ground in the philosophy of reason by situating rationality logical theory ontology first philosophy philosophical hermeneutics in a global context and tapping the global essence of natural reason The essays formulate and resolve a fundamental problem in the human condition which has not been adequately dealt with how discourse between two profoundly different worlds is possible The formulation and solution of this vital human concern requires the clarification of the universal logos in natural reason the universal logic which is the common ground between worlds The essays open the way to the emerging frontier of global reason in expanding the foundations of logic ontology hermeneutical practice and the discourse of philosophy in a global context This calls for a paradigm shift in rational practice from egocentric reason to dialogical or global reason Mysteries of Creation solved, etc
