The Complete Book on Spices & Condiments (with Cultivation, Processing & Uses) 2nd Revised Edition
NIIR Board of Consultants & Engineers,2006-04-01 The term spices and condiments applies to such natural
plant or vegetable products and mixtures thereof used in whole or ground form mainly for imparting flavor aroma and
piquancy to foods and also for seasoning of foods beverages like soups The great mystery and beauty of spices is their use
blending and ability to change and enhance the character of food Spices and condiments have a special significance in
various ways in human life because of its specific flavours taste and aroma Spices and condiments play an important role in
the national economies of several spice producing importing and exporting countries India is one of the major spice
producing and exporting countries Most of the spices and herbs have active principles in them and development of these
through pharmacological and preclinical and clinical screening would mean expansion of considerable opportunities for
successful commercialization of the product Spices can be used to create these health promoting products The active
components in the spices phthalides polyacetylenes phenolic acids flavanoids coumarines triterpenoids serols and
monoterpenes are powerful tools for promoting physical and emotional wellness India has been playing a major role in
producing and exporting various perennial spices like cardamoms pepper vanilla clove nutmeg and cinnamon over a wide
range of suitable climatic situations To produce good quality spice products attention is required not only during cultivation
but also at the time of harvesting processing and storing Not as large as in the days when next to gold spices were
considered most worth the risk of life and money The trade is still extensive and the oriental demand is as large as ever Some
of the fundamentals of the book are definition of spices and condiments nomenclature or classification of spices and
