F. K. Koerner, 2004-01-01 The present volume follows the author's tradition of bringing together at certain intervals selections of articles which more often than not had previously been published in not easily accessible places or which had not been published before These papers do not typically represent mere reprints but in most instances thoroughly revised versions This volume contains twelve articles organized under three headings Programmatic Papers in the History of Linguistics Studies in Linguistic Historiography and Sketches historiographical and auto biographical plus as an appendix a complete list of Zellig Harris writings as an illustration of Koerner's penchant for and belief in the importance of good bibliographies as a basis for historical research While the first two sections which take up the bulk of the volume either show the author as an historian engage or

demonstrate his work as a historiographer of 19th and 20th century linguistics the third section is much shorter and less heavy going Indexes of Biographical Names and of Subjects Terms Languages round out the volume which also contains a number of portraits of linguists and other illustrations

Proceedings of the British Academy British Academy, 2002 **Social Action**, 2000 Vedic Culture and Its Continuity Sitārāma Dube, 2006.
