Slave Graves:

Forgotten Bones Lois Miner Huey, 2015-08-01 An ordinary construction project uncovers an extraordinary archaeological discovery Imagine you re watching a backhoe dig up the ground for a construction project when a round object rolls down a pile of dirt and stops at your feet You pick it up brush off some dirt and realize you re holding a skull This is exactly what happened in Albany New York in 2005 Workers were putting in new sewer line when a backhoe driver dug up a skull After police declared the skull wasn t connected to any recent crimes a team of archaeologists took a closer look They determined the skull was from a Black person who had died at least one hundred years earlier Suddenly the construction site turned into an archaeological dig Scientists excavated more bones and realized that they had located a long lost cemetery for enslaved people from the 1700s Slavery had been legal in the northern United States including in New York State in colonial times but the stories of these enslaved people are largely unknown This site became just the third slave cemetery ever to be excavated in the North See how archaeologists pieced together the truth about these once forgotten bones A fascinating glimpse into how archaeologists piece together the past Booklist Children s Book Committee at Bank Street College Best Children s Book of the Year *The Archaeology of Slavery in Early Medieval Northern Europe* Felix Biermann, Marek Jankowiak, 2021-11-18 This volume is the first comprehensive study of the material imprint of slavery in early medieval Europe While written sources attest to the ubiquity of slavery and slave trade in early medieval British Isles Scandinavia and Slavic lands it is still difficult to find material traces of this reality other than the hundreds of thousands of Islamic coins paid in exchange for the northern European slaves This volume offers the first structured reflection on how to bridge this gap It reviews the types of material evidence that can be associated with the institution of slavery and the slave trade in early medieval northern Europe from individual objects such as e g shackles to more comprehensive landscape approaches The book is divided into four sections The first presents the analytical tools developed in Africa and prehistoric Europe to identify and describe social phenomena associated with slavery and the slave trade The following three sections review the three main cultural zones of early medieval northern Europe the British Isles Scandinavia and Slavic central Europe The contributions offer methodological reflections on the concept of the archaeology of slavery They emphasize that the material record by its nature admits multiple interpretations More broadly this book comes at a time when the history of slavery is being integrated into academic syllabi in most western countries The collection of studies contributes to a more nuanced perspective on this important and controversial topic This volume appeals to multiple audiences interested in comparative and global studies of slavery and will constitute the point of reference for future debates [African Burial Ground National Monument Ethnographic Overview and Assessment](#) Dána-Ain Davis, Leith Mullings, 2012 **African American Historic Burial Grounds and Gravesites of New England** Glenn A. Knoblock, 2015-12-24 Evidence of the early history of African Americans in New England is found in the many old cemeteries and burial grounds in the region often in hidden or largely

forgotten locations This unique work covers the burial sites of African Americans both enslaved and free in each of the New England states and uncovers how they came to their final resting places The lives of well known early African Americans are discussed including Venture Smith and Elizabeth Freeman as well as the lives of many ordinary individuals military veterans business men and women common laborers and children The author s examination of burial sites and grave markers reveals clues that help document the lives of black New Englanders from the 1640s to the early 1900s

Grief and Genre in American Literature, 1790-1870 Desirée Henderson, 2016-04-15 Focusing on the role of genre in the formation of dominant conceptions of death and dying Desir e Henderson examines literary texts and social spaces devoted to death and mourning in eighteenth and nineteenth century America Henderson shows how William Hill Brown Susanna Rowson and Hannah Webster borrowed from and challenged funeral sermon conventions in their novelistic portrayals of the deaths of fallen women contrasts the eulogies for George Washington with William Apess s Eulogy for King Philip to expose conflicts between national ideology and indigenous history examines Frederick Douglass s use of the slave cemetery to represent the costs of slavery for African American families suggests that the ideas about democracy materialized in Civil War cemeteries and monuments influenced Walt Whitman s war elegies and offers new contexts for analyzing Elizabeth Stuart Phelps s The Gates Ajar and Emily Dickinson s poetry as works that explore the consequences of female writers claiming authority over the mourning process Informed by extensive archival research Henderson s study eloquently speaks to the ways in which authors adopted revised or rejected the conventions of memorial literature choices that disclose their location within decisive debates about appropriate gender roles and sexual practices national identity and citizenship the consequences of slavery the nature of democratic representation and structures of authorship and literary authority

Cemeteries of Ambivalent Desire Marie Theresa Hernández, 2008 Growing up as the daughter of a funeral director in Fort Bend County Texas Marie Theresa Hernández was a frequent visitor to the San Isidro Cemetery a burial place for Latino workers at the Imperial Sugar Company based in nearby Sugar Land During these years she acquired from her father and mother a sense of what it was like to live as an ethnic minority in Jim Crow Texas Therefore returning to the cemetery as an ethnographer offered Hernández a welcome opportunity to begin piecing together a narrative of the lives and struggles of the Mexican American community that formed her heritage However Hernández soon realized that San Isidro contained hidden depths The cemetery was built on the former grounds of an old slave owning plantation Her story quickly burgeoned from one of immigrant laborers working the land of the giant sugar company to one of the slave laborers who had worked the sugar plantations decades before but whose history had been largely wiped out of the narrative of the affluent white majority county Much like an archeologist Hernández began carefully brushing away layers of time to reveal the fragile entombed remnants of a complex unknown past A professional photographer as well as a scholar Hernández provides visual images to spur the reader's imagination and anchor the narrative in historical reality She mines interviews newspaper accounts and other primary sources interpreted through her own rich sense of place and time to reconstruct the identity of a community where the Old South the wealthy New South and the culture from south of the border all come together to form an almost iconic symbol for today's America In this complex and nuanced self-reflexive ethnography Hernández interweaves personal memory and group history ethnic experience and class even death and life
