

A man and a woman are shown in profile, facing each other and smiling. The man is on the left, with dark hair and a beard, wearing a dark blue shirt. The woman is on the right, with dark hair pulled back, wearing large hoop earrings and a light-colored top. They are standing in front of a blurred city street at night, with warm lights from buildings and street lamps creating a bokeh effect in the background. A semi-transparent brown banner with white text is overlaid across the middle of the image.

The Madonna Complex Norman Bogner, 1969 A Student Handbook to the Plays of Arthur Miller Alan

Ackerman, 2013-12-16 A Student Handbook to the Plays of Arthur Miller provides the essential guide to Miller s most studied and revived dramas Authored by a team of leading scholars it offers students a clear analysis and detailed commentary on five of Miller s plays All My Sons Death of a Salesman The Crucible A View from the Bridge and Broken Glass A consistent framework of analysis ensures that whether readers want a summary of the play a commentary on the themes or characters

or a discussion of the work in performance they can readily find what they need to develop their understanding and aid their appreciation of Miller's artistry. A chronology of Miller's life and work helps to situate his oeuvre in context and the introduction reinforces this by providing a clear overview of his writing, its recurrent themes, and how these are intertwined with his life and times. For each play, the author provides a summary of the plot followed by commentary on the context, themes, characters, structure, and language, and the play in production, both on stage and screen. Adaptations, there are questions for further study and detailed notes on words and phrases in the text. The wealth of authoritative and clear commentary on each play, together with further questions that encourage comparison across Miller's work and related plays by other leading writers, ensures that this is the clearest and fullest guide to Miller's greatest plays.

The Madonna Connection Cathy Schwichtenberg, 1993

Various cultural theories, foremost among them postmodernism, have figured in the debate over the politics of representation. These theories have tended to look at representation in the context of either audience enablement or commercial constraint: that is, do the images empower the public or inhibit it? One key area consistently overlooked has been the study of subcultural or subordinate groups that appropriate what is traditionally considered mainstream. *The Madonna Connection* is the first book to address the complexities of race, gender, and sexuality in popular culture by using the influence of a cultural heroine to advance cultural theory. Madonna's use of various media—music, concert, tour, film, and video—serves as a paradigm by which the contributors study how images and symbols associated with subcultural groups—multiracial, gay, and lesbian feminist—are smuggled into the mainstream. Using a range of critical and interpretive approaches to this evolving and lively cultural phenomenon, the contributors demonstrate the importance of personalities like Madonna to issues of enablement and constraint: Are others given voice by political interventions in mass popular culture? Or is their voice co-opted to provide mere titillation and maximum profit? What might the interplay of these views suggest? These are some of the questions the contributors attempt to answer. Some celebrate Madonna's affirmation of cultural diversity; others criticize her flagrant self-marketing strategies; and still others regard her as only a provisional challenge to the mainstream.
