The Mantle Of Maturity:

The Mantle of Maturity Christie W. Kiefer, 1988-01-01 Kiefer presents a comprehensive overview of the key historical concepts of developmental psychology maturity and maturation The result of this historical focus is a view of maturity that accounts for both the social forces shaping beliefs and the social consequences of those beliefs Here is a bridge between developmental psychology history and contemporary society The author begins by presenting his view of the role of ideas in history and the importance of the idea of moral maturity in psychological science as well as in the process of understanding self The history of maturity as a moral ideal is presented beginning with primitive society Key features of Medieval Renaissance Enlightenment and modern Western society that have influenced ideas of maturity are considered in turn In part II Kiefer examines beliefs about the actual process of growth and development from earlier nonliterate society and into the present Attempts to unite the philosophic and scientific concepts of development are discussed such as the Platonic path of love as represented by Carol Gilligan the Aristotelian path of reason by Lawrence Kohlberg and Freud s path of conflict Cultural historical explanations are sought for the particulars of these interplays In the concluding section Plato s four indestructible stages of maturity and implications of modern life for the attainment of these stages are evaluated Kiefer makes a plea for an historically self conscious psychology By bringing together concepts from anthropology philosophy psychology and history the author presents a synthetic view of maturing that has fundamental applications in the fields of human development social gerontology philosophy and psychotherapy
