Watson Nobel Laureate and co-discoverer of DNA *The God Delusion* caused a sensation when it was published in 2006 Within weeks it became the most hotly debated topic with Dawkins himself branded as either saint or sinner for presenting his hard-hitting impassioned rebuttal of religion of all types His argument could hardly be more topical While Europe is becoming increasingly secularized the rise of religious fundamentalism whether in the Middle East or Middle America is dramatically and dangerously dividing

opinion around the world In America and elsewhere a vigorous dispute between intelligent design and Darwinism is seriously undermining and restricting the teaching of science In many countries religious dogma from medieval times still serves to abuse basic human rights such as women s and gay rights And all from a belief in a God whose existence lacks evidence of any kind Dawkins attacks God in all his forms He eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being He shows how religion fuels war foments bigotry and abuses children The God Delusion is a brilliantly argued fascinating polemic required reading for anyone interested in this most emotional and important subject
