Uncommon Sense Theoretical Practice In Language Education:

Uncommon Sense John Sawyer Mayher,1990 Mayher traces his own evolution as a teacher learner by recapturing the processes of reflection and inquiry he went through when confronted by contradictions between the way commonsense teaching and learning were supposed to work and the actual experiences of students in his classrooms **Constructivist Learning Environments** Brent Gayle Wilson,1996 New Perspectives on Teaching and Learning Modern Languages Simon Green,2000-01-01 This exciting new publication featuring chapters from some of the foremost practitioners in the field of modern languages today closely examines research based analysis structural contexts and classroom practice in teaching and learning After analysing the current situation each author proposes radical solutions to current problems and the whole book provides much needed fresh thinking on methodology and pedagogy *Sounds of Silence Breaking* Janet L. Miller,2005 This book contains a broad range of Millers writings and intertwines interpretations of educational theories events and practices throughout private and public dimensions of Miller s life **Literacies** Mary Kalantzis,Bill Cope,2012-04-16 An introduction to literacy pedagogy within today s new media environment **Teaching and Learning in a Multicultural Classroom** Janis Massa,2003 Reaching and Teaching Diverse Populations Mary Buckelew,Andrea Fishman,2011 By engaging trainee teachers in activities that promote their understanding of diversity topics this book deepens their understanding of the interrelationship of the community the school classroom dynamics and cultures *Garth Boomer, English Teaching and Curriculum Leadership* Bill Green,2024-07-01 This book provides a broad introduction to the critical work of leading Australian educator Garth Boomer widely recognised as a significant figure in English teaching This insightful text provides an accessible introduction to his work with particular reference to English curriculum and pedagogy and provides a fascinating account of his journey as a scholar practitioner from classroom teaching to the highest levels of the educational bureaucracy Bill Green explores Boomer s huge influence on literacy education teacher development curriculum inquiry and educational policy and critically asks why Boomer s insights and arguments about English teaching from the last century have such importance for the field now This text also focuses on the nature and significance of his curriculum thinking specifically his arguments and provocations regarding English teaching the English classroom and the contexts that infuse and shape them It constitutes a rich resource for rethinking English teaching in the present day and provides an important contribution to the historical imagination With all due consideration of the larger context of social life and educational thought this text will help any student of English in Education and Language Arts obtain a deeper understanding of Boomer s vital contribution to the field of education *English Journal* ,2004 **Theorizing Composition** Mary Kennedy,1998-06-25 The last 25 years have witnessed extraordinary growth in the academic specialization variously described as composition studies or rhetoric and composition What was noticeable about the field in its infancy was a preoccupation with practice a lack of emphasis on theory and an exclusive reliance on the writing process

As its disciplinary status has grown the field has become far more theoretical Composition studies has expanded its focus reconceptualized the writing process and embraced a wide range of critical perspectives The result of this change is that terms such as poststructuralism social construction gender and genre which were largely unknown in 1965 now dominate discussion This reference book is a guide to the multiplicity of theories that have emerged to form the disciplinary foundation of composition studies The volume consists of 66 entries each of which is written by an expert contributor and focuses on a particular theory or group of theories While the entries show how various individuals have contributed to theoretical movements very few concentrate on the work of a single theorist Each entry first provides a critical summary of a particular theory or group of theories including key elements basic concepts and claims and information about seminal or particularly influential works It then reviews the theory s critical reception in composition studies and discusses its significance in the field The bibliography at the end of each entry lists primary texts and major scholarship related to the theory and provides additional suggestions for further reading The volume closes with a selected bibliography of important works

Alternatives to Grading Student Writing Stephen Tchudi, 1997 The result of an investigation into the grading writing by the National Council of Teachers of English Committee on Alternatives to Grading Student Writing this collection of essays offers the writing teacher several innovative and interesting options Following an introduction by the editor chair of the Committee in which he delineates the field of possibilities the essays and their authors are as follows
