## **Unconventional Aircraft:**

**Unconventional Aircraft** Peter M. Bowers, 1990      **Preliminary Unconventional Aircraft Design** Jordi Morera Serra, 2012

The new global economic challenges push airlines to adapt their policies to it. They are constantly looking for reductions in operating costs either in terms of fuel consumption, maintenance, or environmental taxes. Therefore, they impose constraints on their manufacturers so that they provide lighter aircraft, more silent, and with more optimized aerodynamics. With current aircraft configurations, manufacturers realize that they can not satisfy the required specifications. Many researches are currently being conducted to find new aircraft configurations that could respond to these specifications. The ying wing is one of the possibilities within the research panorama. The general idea of the ying wing is the following: in order to increase its performance, all parts not involved in the lift generation are removed, as the fuselage and tail. The fact that the whole aircraft participates in lift generation would a priori decrease the drag. Specifically, while a conventional aircraft has a relatively heterogeneous distribution of large masses, the fuselage containing the entire payload, the ying wing provides a more homogeneous distribution. Indeed, as fuel and cargo are distributed over a greater lateral surface, shear loads are less important and contribute to lighten the aircraft. Finally, due to the width of the central body, the ying wing has the ability to mask the noise made by the engines, reducing noise impact to airport and its vicinity. Therefore, it will lead not only to reduction of taxes but also to increase authorized operating time of their fleet. That is why, in recent years, Airbus has increased its experience in the field of ying wings, participating in European projects VELA and NACRE. Since 2007, new projects are developing the ying wing project New Long Range NLR and the ying wing New Short Range NSR. This study is focused in the design of a new baseline for the New Short Range ying wing and to evaluate its mass and its handling qualities performance.

*Unexpected Military Secrets* Sabine Lorca, AI, 2025-04-03

*Unexpected Military Secrets* unveils declassified military projects revealing a hidden side of military history. Long concealed experiments and forgotten weapons programs bordering on science fiction are brought to light. These initiatives, driven by ambition and ingenuity, also expose the ethical complexities of military research. For example, early attempts at directed energy weapons illustrate the technological creativity and occasional absurdity of military pursuits. The book progresses by first setting the stage with an introduction to hidden military history and declassification processes. It then explores experiments involving human subjects, delving into the ethical boundaries tested in the name of national security. Later chapters uncover forgotten weapons projects and conclude with the long-term implications of these secrets. This approach allows for a thorough examination of how the pursuit of military advantage has led to unconventional experiments impacting current military strategies, technological development, and public trust.

**A History of Military Encounters with UFOs** Robert Allred, 2024-12-30

This book explores the long history of military encounters with UFOs, revealing hidden incidents of dogfights, nuclear interference, and mysterious confrontations with unidentified aerial phenomena. Military bodies across the world have encountered, experimented with, and even had

combat with UFOs or as the U S military now define them Unidentifiable Aerial Phenomenon or UAPs These observations and engagements have occurred since ancient times and on all continents Different nations and cultures have had vastly different analyzes of the UFO UAP phenomenon from the Roman Empire to Nazi Germany and the Soviet Union and Communist China to the Western democracies The UFO UAP phenomenon has not diminished and has in fact grown in proportion in recent years and has now assumed the mantle of legitimacy in government circles the media and among the general public What is less well known or even concealed are the encounters that the military have had with UFOs some of which have even proved fatal to the terrestrials concerned There were reported dogfights with UFOs and German aircraft in the First World War and in the Second World War reports of what became known as Foo Fighters became commonplace However it was after the war that UFO sightings increased exponentially amongst which was a dogfight with a Mustang P 51 and a UFO in October 1948 and two years later for two consecutive weekends in 1952 UFOs hovered over Washington D C Attempts were made by the U S Air Force to intercept the strange craft but were outrun by the UFOs UFOs UAPs may have tampered with world nuclear forces including shutting down strategic missiles of the United States and conversely activating Soviet ICBMs almost setting off an unordered by Soviet authorities launching of atomic warheads against the United States UFOs may also have returned fire against American military forces during the Vietnam War sending projectiles back at patrol boats that had been fired by those military river craft at UFOs hours or days before United States Air Force personnel including a Lieutenant Colonel also encountered UFOs on the ground and in the air at Rendlesham USAF RAF base in the UK in 1980 UFOs have played cat and mouse games with the latest fighter bombers of the United States Navy since 2004 and these events have been captured on videotape and are verified to have occurred by the pilots themselves As readers will discover from the mass of evidence presented in this book it is no longer a question of whether UFOs exist or not and that not only are such phenomenon an incontrovertible fact but that the United States has crafted plans on how to resist an alien invasion But is there any need for us humans to be concerned about the alien presence in the skies that surround our planet Yes be very concerned
