Ultimate Vanishing Point:

Ultimate Vanishing Point A. David Farsang, 1994-01-01 **Edmund Husserl: The cutting edge :**
phenomenological method, philosophical logic, ontology, and philosophy of science Rudolf Bernet, Donn Welton, Gina Zavota, 2005 This collection makes available in one place the very best essays on the founding father of phenomenology reprinting key writings on Husserl's thought from the past seventy years. It draws together a range of writings, many otherwise inaccessible, that have been recognized as seminal contributions not only to an understanding of this great philosopher but also to the development of his phenomenology. The four volumes are arranged as follows: Volume I: Classic essays from Husserl's assistants, students, and earlier interlocutors. Including a selection of papers from such figures as Heidegger, Merleau-Ponty, Sartre, Ricoeur, and Levinas. Volume II: Classic commentaries on Husserl's published works. Covering the Logical Investigations, Ideas I, Phenomenology of Internal Time, Consciousness and Formal and Transcendental Logic. Volumes III and IV: Papers concentrating on particular aspects of Husserl's theory, including Husserl's account of mathematics and logic, his theory of science, the nature of phenomenological reduction, his account of perception and language, the theory of space and time, his phenomenology of imagination and empathy, the concept of the life-world, and his epistemology. **The Development of International Law by the International Court of Justice** Christian J. Tams, James Sloan, 2013-09-12 This book traces the impact that the International Court of Justice (ICJ), the principal judicial organ of the United Nations, has had on various areas of international law. A number of prominent international experts examine whether and to what extent international law has been shaped by the Court's jurisprudence. The informal development of international law through the Court's judgments contrasts with the development of international law through more deliberate means such as treaty-making. Assessing key areas of international law over which the ICJ has exercised its jurisdiction, such as international environmental law, international human rights, the law of the sea, and the law of immunities, this book comprehensively details the impact of international jurisprudence on contemporary international law. Continuing the work started by Sir Hersch Lauterpacht's influential book *The Development of International Law by the Permanent Court of International Justice*, this book provides key new insights into the role of the Court in wider international law. It makes required reading for anyone studying the ways in which international courts have shaped the evolution of international law.

Philosophy and Science in Phenomenological Perspective Kah Kyung Cho, 2012-12-06 The articles included in this volume originate from contributions to the International Conference on Philosophy and Science in Phenomenological Perspective held in Buffalo in March 1982. The occasion had been to honor the late Professor Marvin Farber, a long-time distinguished member of the Department of Philosophy, State University of New York at Buffalo, and the Founding Editor of the journal *Philosophy and Phenomenological Research*. Many of the papers were subsequently rewritten, expanded, or otherwise edited to be published in the series *Phaenomenologica*. The articles by Professor Frings and Professor Rotenstreich had not been

presented at the conference although they were originally invited papers We regret that not all papers submitted to the conference including comments could be accommodated in this volume Nonetheless our sincere gratitude is due to all participants who have made the conference a memorable and worthy event nt of Philosophy State University of New York at The Departme Buffalo as the sponsor of the conference wishes to acknowledge the grants from the Conferences in the Disciplines Program Conversations in the Disciplines Program and the International Studies of the State University of New York at Buffalo as well as for a grant from the National Endowment for the Humanities The International Phenomenological Society with Professor Roderick Chisholm succeeding Marvin Farber as its president co sponsored the conference
