

A dramatic landscape featuring a large, white, angular structure floating in a dark, starry sky. The structure has a complex, crystalline form with various protrusions and recesses. Below the sky, a vast, hazy landscape of rolling hills and mountains is visible, with a prominent, jagged, rocky mountain peak on the right side. The overall scene is atmospheric and mysterious.

Un Feu Sur Labime

Vernor Vinge

Un Feu Sur Labime:

Un feu sur l'abîme Vernor Vinge, 1994 Un feu sur l'abîme renoue avec la grande tradition pique de la Science Fiction où l'extravagant est de rigueur et où l'impossible ne constitue qu'une difficulté passagère. Mais l'imagination effervescente de Vernor Vinge respecte toujours les lois de la logique et autant que possible celles de l'univers. Une expédition straublienne explorant une Archive dans la presque Transcendance a découvert une Perversion sur la galaxie entière. Un unique navire est parvenu à fuir dans la nuit pourchassé. À travers l'espace il fonce vers le centre de la galaxie vers Les Lenteurs où l'on ne peut pas dépasser la vitesse de la lumière ou les systèmes informatiques les plus performants même les silencieuses intelligences biologiques subissent une perte de leurs facultés. Il cherche un monde où se poser. Les deux seuls survivants de l'expédition ne tiennent sans le savoir la clé du salut de millions de civilisations dont certaines sont bien plus anciennes que l'humanité : ce sont deux enfants, Johanna et Jefri, abandonnés eux-mêmes sur un monde médiéval dont les conflits et les cruautés ne le cèdent en rien à ceux de la galaxie. Et ceux qui voudraient les aider et sauver du même coup la galaxie civilisée se trouvent encore des milliers d'années lumière.

Un feu sur l'abîme Vernor Vinge, 2000 L'expédition straublienne est tombée sur un trésor aux confins de la Galaxie : une mine de programmes inconnus dans les Archives d'une civilisation disparue. Mais en l'explorant elle découvre une Perversion : une Intelligence Artificielle qui ne songe qu'à soumettre et détruire toutes les civilisations, toutes les formes de vie. Deux enfants parviennent à s'échapper. Ils emportent avec eux le seul remède possible. Mais ils sont incapables de diriger leur navire. Vernor Vinge nous donne ici le plus fabuleux space opera de ces dernières années qui a obtenu le très convoité prix Hugo.

Un feu sur l'abîme Vernor Vinge, 2022-10-13 Prix Hugo 1993 Dans une galaxie où l'évolution technologique et les lois qui la gouvernent dépendent de la place que vous y occupez, il est risqué de s'aventurer en dehors de votre zone. Lorsque la jeune et ambitieuse civilisation humaine libère accidentellement une ancienne intelligence artificielle, celle-ci la Perversion menace l'Univers tout entier. Sans le savoir, deux adolescents rescapés du naufrage d'un vaisseau ne tiennent entre leurs mains le salut de millions d'espèces intelligentes. Mais ils chouent sur une planète primitive et ceux qui peuvent leur venir en aide se trouvent des milliers d'années lumière. Une terrible course contre la montre s'engage alors.

Who he? Alfred Bester, 2025-04-24 Alfred Bester's *Who He* is an audacious exploration of identity and the nature of knowledge presented through a kaleidoscopic narrative that oscillates between reality and speculation. In this novel Bester employs his characteristic blend of speculative fiction with vivid prose utilizing nonlinear storytelling and innovative typography to challenge conventional views of time and self. Set against a backdrop of a futuristic society grappling with existential questions, the narrative pushes the boundaries of genre by incorporating elements of both science fiction and psychological thriller, inviting readers to question what it truly means to exist. Alfred Bester, a prominent figure in the golden age of science fiction, is renowned for his visionary storytelling and complex characterizations. His experiences in the realm of

psychology alongside his interest in the interwar avant garde culture deeply inform his writing style and thematic concerns Who He arises from Bester's fascination with the fluid nature of identity intensified by his own experiences in a rapidly evolving world positioning him as a literary pioneer who anticipates contemporary debates about personal and collective selfhood This compelling novel is highly recommended for readers interested in the intersection of technology identity and consciousness Bester's innovative narrative techniques and profound insights make Who He a thought provoking read that resonates with the complexities of contemporary life It is a vital addition to any collection seeking to explore the depths of human experience
