The Robe:

The Robe Lloyd C. Douglas, 1942 *Fathering Your Father* Alan Cole, 2009-02-09 *Fathering Your Father* is indubitably an important timely work In this incisive re reading of the sources for the early history of Chinese Chan Buddhism Cole conveys a new understanding of material familiar to scholars that might well make students engage with these sources more imaginatively Hitherto scholars have pored over the five or six key sources now we are invited to read them as successive literary inventions In short this study has no competition and is bound to provoke debate T H Barrett Professor of East Asian History School of Oriental and African Studies London and author of *The Woman Who Discovered Printing* **Zen and Material Culture** Pamela D. Winfield, Steven Heine, 2017 The stereotype of Zen Buddhism as a minimalistic or even immaterial meditative tradition persists in the Euro American cultural imagination This volume calls attention to the vast range of stuff in Zen by highlighting the material abundance and iconic range of the Soto Rinzai and Obaku sects in Japan Chapters on beads bowls buildings staffs statues rags robes and even retail commodities in America all shed new light on overlooked items of lay and monastic practice in both historical and contemporary perspectives Nine authors from the cognate fields of art history religious studies and the history of material culture analyze these Zen matters in all four senses of the phrase the interdisciplinary study of Zen s matters objects and images ultimately speaks to larger Zen matters ideas ideals that matter in the predicate sense to both male and female practitioners often because such matters economic considerations help to ensure the cultural and institutional survival of the tradition *Zen and Material Culture* expands the study of Japanese Zen Buddhism to include material inquiry as an important complement to mainly textual institutional or ritual studies It also broadens the traditional purview of art history by incorporating the visual culture of everyday Zen objects and images into the canon of recognized masterpieces by elite artists Finally the volume extends Japanese material and visual cultural studies into new research territory by taking up Zen s rich trove of materia liturgica and supplementing the largely secular approach to studying Japanese popular culture This groundbreaking volume will be a resource for anyone whose interests lie at the intersection of Zen art architecture history ritual tea ceremony women s studies and the fine line between Buddhist materiality and materialism **The Kingdom of the Yellow Robe** Ernest Young, 1898 **The Robe of Athena and the Panathenaic Peplos** John Magruder Mansfield, 1985 Vinaya Texts: The Pâtimokkha. With the volume's global perspective and comparative framework this collection contributes to the ongoing scholarly examination of consumption by taking the topic of women's material culture and consumption into new arenas. The essays explore the connections between consumption and subjectivity they build upon and complicate the idea that consumption as a form of meaning-making is key to the construction of gendered, classed, and national identities. Providing a cross-cultural perspective on consumption, the essays are historically specific case studies. While some essays examine women's consumption in a range of Anglophone and Francophone locations, primarily in Britain, France, Australia, Canada, and the US, other essays on Chinese, Senegalese, Indian, and Mexican women's consumption, particularly as it relates to fashion and design, provide a comparative framework that will recalibrate ongoing discussions about consumption and domesticity, dress, and identity and desire and subjectivity. In addition to its focus on gender and consumption, this volume addresses gender and collecting, exploring the tensions between accumulation and systematic collecting. Also examined is the way in which the display of collected objects in Impressionist paintings, in mass-produced illustrations, in the glass cases of museums, and in department stores participates in the construction of particular identities, as well as serving as a kind of value-producing material practice.

[Padshahnama: A Chronicle of the Reign of Shahjahan \(Volume 2: 1637-1647\)](#) Abdul-Hamid Lahauri Edited and Translated by W. M. Thackston, 2026-01-01

This three-volume work chronicles three decades of the reign of the Mughal Emperor Shahjahan, 1628-1658. The first two volumes are by Abdul Hamid Lahauri and the third volume, available for the first time, is by Muhammad Waris. Since it is a court chronicle, the emphasis throughout is on the rise and fall of courtiers, governors, administrators, and military commanders, and on incessant military campaigns in the Deccan, Bengal, and Afghanistan, but valuable details of life at court and the architecture of one of India's most avid builders are also included. This is an indispensable resource for students and scholars of Mughal India, as well as those interested in Persian and Iranian studies.
